

FREE

**RECYCLING & WASTE
SUPPORT FOR YOUR
BUSINESS.**

Are you a North West business?

Are you looking to procure regional recycling and waste services?

Envirolink Northwest is offering a FREE technical and business support service for North West businesses looking to procure regional recycling and waste services.

What support can we provide?

This service will provide direct, free support to any regional business looking to access the expertise of North West recycling and waste companies. Our free and confidential service includes:

- assistance with identifying local solution providers;
- waste contract/tender support;
- free distribution of tendering opportunities and
- networking opportunities at 'meet the buyer events'.

Who are we?

Envirolink Northwest is a not-for-profit organisation funded by the Northwest Regional Development Agency, the European Union and the region's local authorities.

The recycling and waste specialists within Envirolink Northwest support regional businesses by working to enhance their competitiveness and to develop sustainable waste management practices.

By helping companies to engage with the North West recycling and waste supply chain and to procure local services, Envirolink Northwest can help businesses optimise growth whilst improving their sustainability.

Eligibility

This service is available to any North West business. Certain aspects of this service are only eligible to businesses with a minimum waste/recycling contract value of £100,000 per annum.
