Explanatory Foreword

1 Introduction

This document sets out the City Council's annual accounts for the financial year ended 31 March 2011. The format follows the requirements for publication of financial information as set out by the Code of Practice on Local Authority Accounting (the Code), issued by the Chartered Institute of Public Finance and Accountancy (CIPFA). The document includes a statement of the accounting policies adopted by the Authority, together with a brief explanation of the purpose of and links between the main accounting statements.

The purpose of this foreword is to provide an overall summary of the Council's financial position for 2010/11 and assist in the interpretation of the accounting statements.

2 Revenue Position

2.1 Revenue Summary

The table below summarises the General Fund revenue income and expenditure for 2010/11. It shows the actual variances for each service area but excludes any notional charges that are required for the formal financial statements, as these can distort the position in terms of understanding where actual spending and income variances have occurred.

	2010/11			Variance from Revised Budget
	Original Budget	Revised Budget	Actual	
	£000	£000	£000	£000
Expenditure:				
Community Engagement	4,511	4,620	4,355	(265)
Environmental Services	5,235	4,795	4,572	(223)
Financial Services	2,334	2,396	2,300	(96)
Governance	1,444	1,473	1,345	(128)
Health & Housing	2,375	2,314	2,360	46
Information Services	1,036	970	922	(48)
Office of the Chief Executive	524	609	605	(4)
Property Services	1,863	1,891	1,641	(250)
Regeneration & Policy	2,304	1,997	1,626	(371)
Corporate Accounts	1,724	981	1,197	216
Net Cost of General Fund Services	23,350	22,046	20,923	(1,123)
Interest Payable & Similar Charges	1,419	1,448	1,503	55
Parish Precepts	528	528	528	0
Contribution to General Fund Balance	70	1,342	2,429	1,087
NET REVENUE EXPENDITURE	25,367	25,364	25,383	19
Funded by:				
General Government Grants	(99)	(96)	(115)	(19)
Revenue Support Grant	(2,076)	(2,076)	(2,076)	0
National Non Domestic Rates	(14,301)	(14,301)	(14,301)	0
Council Tax	(8,891)	(8,891)	(8,891)	0
TOTAL FUNDING	(25,367)	(25,364)	(25,383)	(19)

2.2 General Fund

The General Fund accounts for income and expenditure associated with the day to day running of all the services that the Council provides, with the exception of council housing (see section 2.3 below). The General Fund Revenue Budget for 2010/11 (including parish precepts) was originally approved by Council on 03 March 2010 at £25.268M, representing net revenue expenditure of £25.367M less general government grants of £99K. It assumed that balances would be just over £1M at 31 March 2011, though these were increased by a further £140K following the 2009/10 outturn.

At outturn for 2010/11 there has been a net underspending of £1.087M against the Revised Budget, some of the main areas where underspending has occurred are shown below:

Employees – vacant posts and turnover	-£289K
Vehicles – mainly procurement savings	-£108K
Utilities - gas and electricity contract and usage saving	-£141K
Refuse Collection – efficiency savings	-£145K
Repair & Maintenance of sea defences & public realm	-£126K
Reclaim of VAT	-£170K
Delayed Business Improvement District Development Project	-£80K
Salt Ayre Sports Centre / Community Pools net savings	-£76K
Local Development Framework/Morecambe Action Plan	-£63K
Additional Premises Rental Income	-£97K
Provision of Parking – reduced costs & additional income	-£56K
Revenue financing of Capital Programme	-£42K

Additional spend has also been incurred on contributions to the Insurance Provision (£134K) and the Capital Support Reserve (£350K) to cover additional claims experience in the case of insurance, and to provide cover for increases in capital spend which are anticipated during 2011/12.

At the end of 2010/11, after taking account of principal repayments the Council still had £4.94M of investments outstanding with the three Icelandic banks that are in administration (the original total value was £6M). A decision by the Icelandic District Court effectively gives the Council preferred creditor status for £4M of the outstanding deposits and if retained, this status should improve recovery prospects significantly. The final outcome is currently subject to appeal through the Icelandic Supreme Court, however, and therefore the provisions to cover estimated losses on the £4M have not been reduced; they still allow for a worse case scenario. Unless circumstances warrant it, the provisions will only be reassessed when a final ruling has been received.

As a result of the outturn, General Fund unallocated Balances stand at £3.674M as at 31 March 2011, which is well in excess of the minimum £1M level. This is before consideration of any requests by services to carry forward underspends; if any are approved this will effectively reduce available amounts. Also it should be noted that contributions totalling £1.6M are already budgeted to be taken from Balances over the next two years, to help create an Invest to Save Reserve. Effectively this means that just under £1.1M of available Balances are currently unallocated (equivalent to the underspending in 2010/11).

2.3 Housing Revenue Account (HRA)

The Local Government and Housing Act 1989 requires Councils to maintain a separate ring-fenced account for the provision of local authority housing, which cannot be subsidised by the General Fund. This account, known as the Housing Revenue Account (HRA), deals with all the transactions involving the management of the Council's housing stock. Full details of this are included later within these accounts.

As at 31 March 2011 the working balance on the Housing Revenue Account amounted to £452K. As a result of net underspendings during the year, Balances increased by £102K when compared with the Revised Budget position, before considering any requests to carry forward budgets into 2011/12. The main variances relate to efficiency savings on responsive maintenance (£62K), contract savings and delays on planned maintenance (£103K) and additional rental income (£34K) as a result of less voids. There has, however, needed to be an increase in the bad debt provision of £135K. Current Council Policy is to maintain unallocated housing balances at no less than £350K.

3 Capital Position

In 2010/11 the City Council spent £10.918M on capital schemes, summarised as follows:

Summary of Capital Expenditure and its Financing

Capital Expenditure by Service	£000	Capital Financing	£000
Council Housing	4,185	Grants & Contributions	3,258
Environmental Services	1,642	Reserves	4,590
Community Engagement	46	Unsupported Borrowing	2,352
Health & Housing Services	1,495	Capital Receipts	718
Information Services	80		
Regeneration & Policy	2,600		
Property Services	870		
Financial Services	0		
Total	10,918	Total	10,918

The Council's revised Capital Programme for 2010/11 was £10.163M, but £1.335M of vehicles and bin replacements, which were originally assumed to be leased, were subsequently purchased outright and capitalised in accordance with approved protocols. This effectively increased expected capital spending in last year. Separately, however, for a number of other schemes around £1.006M of slippage is expected to be rolled forward into 2011/12, due to various changes and delays.

The Capital Programme was financed from a variety of sources such as capital receipts, grants, revenue, reserves and borrowing. With regard to the latter, the Council can borrow money for capital purposes provided it can meet certain criteria, linked to affordability, sustainability and prudence, as determined by the Prudential Code Framework. As at 31 March 2011, the Council held around £7.8M in reserves, specifically to help support future years' capital investment plans.

In 2010/11 the net cost of financing external borrowing (e.g. interest charges) was £2.677M, and the value of long term debt owed as at 31 March 2011 amounted to £42.6M, of which £3.4M relates to finance lease liabilities and £39.2M relates to PWLB long term borrowing. Total long term borrowing is £0.5M lower than the previous year due to payment of finance leases. The overall level of debt should be viewed in relation to the Council's long term assets, which had a net book value of around £254M as at 31 March 2011.

4 Pension Liabilities

In accordance with accounting practice, the Council must show the present surplus or deficit position on its share of the Pension Fund. The Local Government Pension Scheme administered by Lancashire County Council underwent a full valuation as at March 2010, the results of which were published in March 2011. This valuation saw an increase in net deficit on the Fund to £993M (£710M in 2007).

For Lancaster, the net position as at 31 March 2011 showed a net liability of £35.958M compared to £59.743M for the previous financial year. This represents a decrease in net liabilities of £23.785M. A proportion of this change (£7.270M) is as a result of the Government's decision to increase public service pensions in line with the consumer price index (CPI) rather than the retail price index (RPI). The actuary has assumed that over the long term CPI will be less than RPI by 0.5% per annum, which has the effect of reducing the calculated value of an employer's liabilities for accounting purposes.

Liabilities have been assessed on an actuarial basis using an estimate of the pensions that will be payable in future years, taking account of assumptions about mortality rates, salary levels etc., although clearly these may vary over time. Also, it is emphasised that such estimated liabilities will not become due immediately or all at once, as they relate to estimated pensions payable to current scheme members on their normal retirement dates. The position represents simply a snapshot as at the end of the financial year, based on prevailing market and other economic conditions and assumptions. As such, it may fluctuate markedly from one year to the next.

Notwithstanding these points, however, the future costs and funding of pensions continue to be national high profile issues, under consideration by Government.

5 Changes in Accounting Policies

The move to an International Financial Reporting Standards (IFRS) based Code from a UK Generally Accepted Accounting Practice (UK GAAP) based Statement of Recommended Practice (SORP) results in a number of significant changes in accounting practice. The main elements of which are as follows:

- Grants and contributions for capital purposes are recognised as income immediately rather than being deferred and released to revenue to match depreciation.
- The main financial statements have changed, and now include additional segmented reporting requirements which show income and expenditure on a service by service basis.
- There is now a greater emphasis on component accounting for assets.
- Property leases are classified and accounted for as separate leases for land and buildings.
- Investment properties are now defined as properties which are held exclusively for revenue generation or for the capital gains that the asset is expected to generate. In this respect, the asset is not used directly to deliver Council services.
- A new classification of non-current assets call “assets held for sale” has been introduced. Assets meeting this classification are those where the value of the asset will be recovered mainly by selling the asset rather than through usage.
- The value of outstanding annual leave and flexible working entitlement earned (employee benefits) must be accrued for within the relevant accounting year.

6 Conclusion

Although 2010/11 has been an uncertain year financially, as at 31 March the Council has improved its financial standing overall by generating net efficiency savings and through other underspendings. Balances are significantly higher than forecast. Whilst there are still uncertainties surrounding the outcome of Icelandic investments, the Council has retained its provisions to cover ‘worse case’ estimated losses and therefore potentially there is scope for its financial position to improve further, should a positive ruling be forthcoming. Looking forward, the Council has earmarked further reserves to help respond to the ongoing financial challenges expected over the coming years. Given funding prospects the Council must continue to reduce costs wherever possible – substantially more efficiency and other savings initiatives will be needed in future in order to ensure a balanced annual budget and financial stability.

THE CORE FINANCIAL STATEMENTS

Movement in Reserves Statement

This statement shows the movement in the year on the different reserves held by the authority, analysed into “usable reserves” and other reserves. The Surplus or (Deficit) on the Provision of Service shows the true economic cost of providing the authority’s services, more detail of which is shown in the Comprehensive Income and Expenditure Statement. These are different from the statutory amounts required to be charged to the General Fund Balance and the Housing Revenue Account for council tax setting purposes. The Net Increase/Decrease before Transfers to Earmarked Reserves line shows the statutory General Fund Balance and Housing Revenue Account Balance before any discretionary transfer to or from earmarked reserves undertaken by the Council.

Comprehensive Income and Expenditure Statement

This statement shows the accounting of providing services cost in the year in accordance with generally accepted accounting practices, rather than the amount to be funded from taxation. Authorities raise taxation to cover expenditure in accordance with regulations; this may be different from accounting cost. The taxation position is shown in the Movement in Reserves Statement.

Balance Sheet

This is fundamental to the understanding of the Council’s year end financial position. It shows the balances and reserves at the Council’s disposal and its long term indebtedness, the net current assets employed in operations, and summarises information on fixed assets held. (It excludes Trust Funds however).

Cash Flow Statement

This statement summarises the inflows and outflows of cash arising from transactions with third parties for revenue and capital purposes.

THE SUPPLEMENTARY FINANCIAL STATEMENTS

Housing Revenue Account Income and Expenditure Account

This is prepared on the same accounting basis as for the main Income and Expenditure Account above. It reflects a statutory obligation to account separately for local authority housing provision. It shows the major elements of housing revenue expenditure and how these are met by rents, subsidy and other income.

Collection Fund

This shows the transactions of the Council as a charging authority in relation to Non Domestic Rates, the Council Tax and any residual Community Charge. It illustrates the way in which these have been distributed to precepting authorities (such as the County Council, Fire and Police Authorities) and the Council’s own General Fund.

Group Accounts

This statement consolidates any material interests the Council may have in subsidiary and associated companies within one set of accounts.

It should be noted that Lancaster has no material interest in any companies and as such, there are no Group Accounts included in the Statement. Details of the Council’s minority interests in any companies are shown in the notes to the Balance Sheet.

Bequests, Endowments and Trust Funds

These show the accounts of various Funds for which the Council is Trustee and administrator.

Independent auditor's report to the members of Lancaster City Council

We have audited the financial statements of Lancaster City Council for the year ended 31 March 2011, comprising the Authority Movement in Reserves Statement, the Authority Comprehensive Income and Expenditure Statement, the Authority Balance Sheet, the Authority Cash Flow Statement, the Housing Revenue Account Income and Expenditure Account and the Collection Fund. The financial statements have been prepared under applicable law and the accounting policies set out in the Statement of Accounting Policies.

This report is made solely to the members of the Authority, as a body, in accordance with Part II of the Audit Commission Act 1998. Our audit work has been undertaken so that we might state to the members of the Authority, as a body, those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the members of the Authority, as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of the Head of Financial Services and auditor

As explained more fully in the Statement of the Head of Financial Services' Responsibilities, set out on page 7, the Head of Financial Services is responsible for the preparation of financial statements which give a true and fair view.

Our responsibility is to audit, and express an opinion on, the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practice's Board's Ethical Standards for Auditors.

Scope of the audit of the financial statements

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of:

- whether the accounting policies are appropriate to the Authority's circumstances and have been consistently applied and adequately disclosed;
- the reasonableness of significant accounting estimates made by the Head of Financial Services; and
- the overall presentation of the financial statements.

In addition, we read all the financial and non-financial information in the Explanatory Foreword to identify material inconsistencies with the audited financial statements. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

Opinion on financial statements

In our opinion the financial statements:

- give a true and fair view of the financial position of the Authority as at 31 March 2011 and of the Authority's expenditure and income for the year then ended; and
- have been prepared properly in accordance with the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2010/11.

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where the Code of Audit Practice 2010 for Local Government Bodies requires us to report to you if:

- the governance statement which accompanies the financial statements does not reflect compliance with 'Delivering Good Governance in Local Government: a Framework' published by CIPFA/SOLACE in June 2007; or
- any matters have been reported in the public interest under section 8 of Audit Commission Act 1998 in the course of, or at the conclusion of, the audit; or
- any recommendations have been made under section 11(3) of the Audit Commission Act 1998; or
- any other special powers of the auditor have been exercised under the Audit Commission Act 1998.

Conclusion on Lancaster City Council's arrangements for securing economy, efficiency and effectiveness in the use of resources

Authority's responsibilities

The Authority is responsible for putting in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources, to ensure proper stewardship and governance, and to review regularly the adequacy and effectiveness of these arrangements.

Auditor's responsibilities

We are required under Section 5 of the Audit Commission Act 1998 to satisfy ourselves that the Authority has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources. The Code of Audit Practice issued by the Audit Commission requires us to report to you our conclusion relating to proper arrangements, having regard to relevant criteria specified by the Audit Commission.

We report if significant matters have come to our attention which prevent us from concluding that the Authority has put in place proper arrangements for securing economy, efficiency and effectiveness in its use of resources. We are not required to consider, nor have we considered, whether all aspects of the Authority's arrangements for securing economy, efficiency and effectiveness in its use of resources are operating effectively.

Basis of conclusion

We have undertaken our audit in accordance with the Code of Audit Practice, having regard to the guidance on the specified criteria, published by the Audit Commission in October 2010, as to whether the Authority has proper arrangements for:

- securing financial resilience; and
- challenging how it secures economy, efficiency and effectiveness.

The Audit Commission has determined these two criteria as those necessary for us to consider under the Code of Audit Practice in satisfying ourselves whether the Authority put in place proper arrangements for securing economy, efficiency and effectiveness in its use of resources for the year ended 31 March 2011.

We planned our work in accordance with the Code of Audit Practice. Based on our risk assessment, we undertook such work as we considered necessary to form a view on whether, in all significant respects, the Authority had put in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources.

Conclusion

On the basis of our work, having regard to the guidance on the specified criteria published by the Audit Commission in October 2010, we are satisfied that, in all significant respects, Lancaster City Council put in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources for the year ending 31 March 2011.

Certificate

We certify that we have completed the audit of the financial statements of Lancaster City Council in accordance with the requirements of the Audit Commission Act 1998 and the Code of Audit Practice 2010 for Local Government Bodies issued by the Audit Commission.

Statement of Responsibilities for the Statement of Accounts

1 The Authority's Responsibilities

The authority is required to:

- make arrangements for the proper administration of its financial affairs and to secure that one of its officers has the responsibility for the administration of those affairs. In this authority, that officer is the Head of Financial Services;
- manage its affairs to secure economic, efficient and effective use of resources and safeguard its assets;
- approve the Statement of Accounts.

2 Audit Committee Chairman's Certificate

I certify that the Statement of Accounts for the financial year 2010/11 was approved following the Audit Committee meeting held on 21 September 2011.

28.09.11

Cllr Malcolm Thomas - Chairman

3 The Head of Financial Services' Responsibilities

The Head of Financial Services as Section 151 Officer is responsible for the preparation of the authority's Statement of Accounts in accordance with proper practices set out in the CIPFA/LASAAC *Code of Practice on Local Authority Accounting in the United Kingdom* ("the Code").

In preparing this Statement of Accounts, the Head of Financial Services has:

- selected suitable accounting policies and then applied them consistently;
- made judgements and estimates that were reasonable and prudent;
- complied with the local authority Code.

The Head of Financial Services has also:

- kept proper accounting records which were up to date;
- taken reasonable steps for the prevention and detection of fraud and other irregularities.

4 Head of Financial Services' Certificate

I certify that the Statement of Accounts present a true and fair view of the financial position of the authority at 31 March 2011 and the income and expenditure for the year then ended.

21.09.11

Nadine Muschamp, CPFA
Head of Financial Services

Date :

Movement in Reserves Statement

The Movement in Reserves Statement is a summary of the changes that have taken place in the bottom half of the Balance Sheet over the financial year. It does this by analysing:

- the increase or decrease in the net worth of the authority as a result of incurring expenses and generating income
- the increase or decrease in the net worth of the authority as a result of movements in the fair value of its assets
- movements between reserves to increase or reduce the resources available to the authority according to statutory provisions.

Comprehensive Income and Expenditure Statement

The Comprehensive Income and Expenditure Statement (CIES) consolidates all the gains and losses experienced by the authority during the financial year. As the authority does not have any equity in the Balance Sheet, these gains and losses should reconcile to the overall movement in net worth.

The CIES has two sections:

- Surplus or Deficit on the Provision of Services – the increase or decrease in the net worth of the authority as a result of incurring expenses and generating income.
- Other Comprehensive Income and Expenditure – shows any changes in net worth which have not been reflected in the Surplus or Deficit on the Provision of Services. Examples include the increase or decrease in the net worth of the authority as a result of movements in the fair value of its assets and actuarial gains or losses on pension assets and liabilities.

Balance Sheet

The Balance Sheet summarises the authority's financial position as 31 March each year. In its top half it contains the assets and liabilities that it holds or has accrued with other parties. As the authority does not have equity, the bottom half is comprised of reserves that show the disposition of the authority's net worth, falling into two categories:

- Usable Reserves, which include the revenue and capital resources available to meet future expenditure (e.g. the General Fund Balance and the Capital Receipts Reserve), and
- Unusable Reserves, which include:
 - unrealised gains and losses, particularly in relation to the revaluation of property, plant and equipment (e.g. the Revaluation Reserve)
 - adjustment accounts that absorb the difference between the outcome of applying proper accounting practices and the requirements of statutory arrangements for funding expenditure (e.g. the Capital Adjustment Account and the Pension Reserve).

Cash Flow Statement

The Cash Flow Statement summarises the flows of cash that have taken place into and out of the authority's bank accounts over the financial year. It separates the flows into:

- those that have occurred as a result of the authority's operations
- those arising from the authority's investing activities (including cash flows related to non-current assets), and
- those attributable to financing decisions.

2009/10	NOTES	2010/11
<i>Restated</i>		
£000		£000
(11,839) Net surplus or (deficit) on the provision of services		(19,839)
27,419 Adjustments to net surplus or deficit on the provision of services for non-cash movements		34,209
(6,497) Adjustments for items included in the net surplus or deficit on the provision of services that are investing and financing activities		(4,377)
9,083 Net cash flows from Operating Activities		9,993
(398) Investing Activities	24	(5,574)
(7,041) Financing Activities	25	(3,347)
1,644 Net increase or decrease in cash and cash equivalents		1,072
(1,858) Cash and cash equivalents at the beginning of the reporting period		(214)
(214) Cash and cash equivalents at the end of the reporting period		858

Notes to the Accounts

The notes to the accounts have three significant roles :

- presenting information about the basis of preparation of the financial statements and the specific accounting policies used
- disclosing the information required by the Code that is not presented elsewhere in the financial statements
- providing information that is not provided elsewhere in the financial statements, but is relevant to an understanding of any of them.

A list of the notes provided is as follows:

Note 1	Accounting Policies
Note 2	Restatement of Prior Year Accounts
Note 3	Critical Judgements in Applying Accounting Policies
Note 4	Assumptions Made about the Future and Other Major Sources of Estimation Uncertainty
Note 5	Events After the Balance Sheet Date
Note 6	Adjustments between Accounting Basis and Funding Basis under Regulations
Note 7	Transfers to/from Earmarked Reserves
Note 8	Other Operating Expenditure
Note 9	Financing and Investment Income and Expenditure
Note 10	Taxation and Non-Specific Grant Income
Note 11	Property, Plant and Equipment
Note 12	Investment Properties
Note 13	Intangible Assets
Note 14	Financial Instruments
Note 15	Inventories
Note 16	Debtors
Note 17	Cash and Cash Equivalents
Note 18	Assets Held for Sale
Note 19	Creditors
Note 20	Provisions
Note 21	Usable Reserves
Note 22	Unusable Reserves
Note 23	Operating Activities
Note 24	Investing Activities
Note 25	Financing Activities
Note 26	Amounts Reported for Resource Allocation Decisions
Note 27	Acquired and Discontinued Operations
Note 28	Trading Operations
Note 29	Agency Services
Note 30	Members' Allowances
Note 31	Officers' Remuneration
Note 32	External Audit Costs
Note 33	Grant Income
Note 34	Related Parties
Note 35	Capital Expenditure and Capital Financing
Note 36	Leases
Note 37	Impairment Losses
Note 38	Termination Benefits
Note 39	Defined Benefit Pension Schemes
Note 40	Contingent Liabilities
Note 41	Contingent Assets
Note 42	Nature and Extent of Risks Arising from Financial Instruments

1 ACCOUNTING POLICIES

1.1 General

The Statement of Accounts summarises the Council's transactions for the 2010/11 financial year and its position at 31 March 2011. The accounts of the authority have been prepared in accordance with the *Code of Practice on Local Authority Accounting in the United Kingdom* (the Code) issued by the Chartered Institute of Public Finance and Accountancy (CIPFA), taking account of the supplementary guidance notes issued by CIPFA on the application of the Code to local authorities, supported by International Financial Reporting Standards.

The accounting convention adopted is principally historical cost, modified by the revaluation of certain categories of non-current assets and financial instruments.

The purpose of this section is to explain the basis of the figures included in the accounts, as the view that they present can only be properly appreciated if these policies are explained fully and understood. Where estimation techniques are used they implement the measurement aspects of accounting policies. An accounting policy will specify the basis on which an item is to be measured; where there is uncertainty over the monetary amount corresponding to that basis, the amount will be arrived at by using an estimation technique.

1.2 Changes to Accounting Policies

The Code 2011/12 has introduced a change in accounting policy in relation to the treatment of heritage assets held by the authority and the measurement of community assets, which will need to be adopted fully by the authority in the 2011/12 financial statements.

The authority is required to disclose information relating to the impact of the accounting change on the financial statements as a result of the adoption by the Code of a new standard that has been issued, but is not yet required to be adopted by the authority. However, at the time of reporting the management information on which to base reasonable estimates of the heritage assets held by the authority and reasonable valuation estimates of community assets was not available. This does not have any impact on the 2010/11 financial statements, and a review will be undertaken in time for the authority to comply with the requirements of the 2011/12 Code.

1.3 Accruals of Income and Expenditure

Activity is accounted for in the year that it takes place, not simply when cash payments are made or received. In particular:

- Revenue from the sale of goods is recognised when the Council transfers the significant risks and rewards of ownership to the purchaser and it is probable that economic benefits or service potential associated with the transaction will flow to the Council.
- Revenue from the provision of services is recognised when the Council can measure reliably the percentage of completion of the transaction and it is probable that economic benefits or service potential associated with the transaction will flow to the Council.
- Supplies are recorded as expenditure when they are consumed – where there is a gap between the date supplies are received and their consumption, they are carried as inventories on the Balance Sheet.
- Expenses in relation to services received (including services provided by employees) are recorded as expenditure when the services are received rather than when payments are made.
- Interest receivable on investments and payable on borrowings is accounted for respectively as income and expenditure on the basis of the effective interest rate for the relevant financial instrument rather than the cash flows fixed or determined by the contract.
- Where revenue and expenditure have been recognised but cash has not been received or paid, a debtor or creditor for the relevant amount is recorded in the Balance Sheet. Where debts may not be settled, the balance of debtors is written down and a charge made to revenue for the income that might not be collected.

1.4 Acquisitions and Discontinued Operations

Acquired operations

Additional policy detail is required where an authority has acquired operations (or transferred operations under machinery of government arrangements) during the financial year.

Discontinued operations

Additional policy detail is required where an authority has discontinued operations (or transferred operations under machinery of government arrangements) during the financial year.

1.5 Cash and Cash Equivalents

Cash and cash equivalents are made up purely of the Council's current bank account balance. Investment balances are at their lowest at the year end and so any residual balances in short notice deposit accounts are assumed to be investing activities and not in support of short term cash management.

In the Cash Flow Statement, cash and cash equivalents are shown net of bank overdrafts that are repayable on demand and form an integral part of the Council's cash management.

1.6 Exceptional Items

When items of income and expense are material, their nature and amount is disclosed separately, either on the face of the Comprehensive Income and Expenditure Statement or in the notes to the accounts, depending on how significant the items are to an understanding of the Council's financial performance.

1.7 Prior Period Adjustments, Changes in Accounting Policies and Estimates and Errors

Prior period adjustments may arise as a result of a change in accounting policies or to correct a material error. Changes in accounting estimates are accounted for prospectively, i.e. in the current and future years affected by the change and do not give rise to a prior period adjustment.

Changes in accounting policies are only made when required by proper accounting practices or the change provides more reliable or relevant information about the effect of the transactions, other events and conditions on the Council's financial position or financial performance. Where a change is made, it is applied retrospectively (unless stated otherwise) by adjusting opening balances and comparative amounts for the prior period as if the new policy had always been applied.

Material errors discovered in prior period figures are corrected retrospectively by amending opening balances and comparative amounts for the prior period.

1.8 Charges to Revenue for Non-Current Assets

Services, support services and trading accounts are debited with the following amounts to record the cost of holding fixed assets during the year:

- Depreciation attributable to the assets used by the relevant service
- Revaluation and impairment losses on assets used by the service where there are no accumulated gains in the Revaluation Reserve against which the losses can be written off
- Amortisation of intangible fixed assets attributable to the service.

The Council is not required to raise council tax to fund depreciation, revaluation and impairment losses or amortisations. However, it is required to make an annual contribution from revenue towards the reduction in its overall borrowing requirement in accordance with statutory guidance. Depreciation, revaluation and impairment losses and amortisations are therefore replaced by the contribution in the General Fund Balance (Minimum Revenue Provision), by way of an adjusting transaction with the Capital Adjustment Account in the movement in Reserves Statement for the difference between the two.

1.9 Employee Benefits

Benefits Payable during Employment

Short-term employee benefits are those due to be settled within 12 months of the year-end. They include such benefits as salaries, paid annual leave and paid sick leave, bonuses and non-monetary benefits (e.g. cars) for current employees and are recognised as an expense for services in the year in which employees render service to the Council. An accrual is made for the cost of holiday entitlements earned by employees but not taken before the year-end which employees can carry forward into the next financial year. The accrual is made at the salary rate applicable in the following accounting year, being the period in which the employee takes the benefit. The accrual is charged to the Surplus or Deficit on the Provision of Services, but then reversed out through the Movement in Reserves Statement so that holiday benefits are charged to revenue in the financial year in which the holiday absence occurs.

Termination Benefits

Termination benefits are amounts payable as a result of a decision by the Council to terminate an officer's employment before the normal retirement date or an officer's decision to accept voluntary redundancy, they are charged on an accruals basis to the Non Distributed Costs line in the Comprehensive Income and Expenditure Statement when the Council is demonstrably committed to the termination of the employment of an officer or group of officers or making an offer to encourage voluntary redundancy.

Where termination benefits involve the enhancement of pensions, statutory provision require the General Fund balance to be charged with the amount payable by the Council to the Pension Fund or pensioner in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, appropriations are required to and from the Pensions Reserve to remove the notional debits and credits for pension enhancement termination benefits and replace them with debits for the cash paid to the Pension Fund and pensioners and any such amounts payable but unpaid at the year-end.

The Local Government Pension Scheme

Employees of the Council are members of the Local Government Pension Scheme, which is administered on our behalf by Lancashire County Council. It is accounted for as a defined benefits scheme:

- The liabilities of the Lancashire pension fund attributable to the Council are included in the Balance Sheet on an actuarial basis using the projected unit method – i.e. an assessment of the future payments that will be made in relation to retirement benefits earned to date by employees, based on assumptions about mortality rates, employee turnover rates, etc, and projections of projected earnings for current employees.
- Liabilities are discounted to their value at current prices, using a discount rate of 5.5%.
- The assets of Lancashire pension fund attributable to the Council are included in the Balance Sheet at their fair value:
 - **quoted securities** – current price bid
 - **unquoted securities** – professional estimate
 - **unitised securities** – current bid price
 - **property** – market value
- The change in the net pensions liability is analysed into seven components:
 - **current service cost** – the increase in liabilities as a result of years of service earned this year - allocated in the Comprehensive Income and Expenditure Statement to the services for which the employees worked
 - **past service cost** – the increase in liabilities arising from current year decisions whose effect relates to years of service earned in earlier years – debited to the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement as part of Non Distributed Costs
 - **interest cost** - the expected increase in the present value of liabilities during the year as they move one year closer to being paid – debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement
 - **expected return on assets** – the annual investment return on the fund assets attributable to the Council, based on an average of the expected long-term return – credited to the Financing

and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement.

- **gains or losses on settlements and curtailments** – the result of actions to relieve the Council of liabilities or events that reduce the expected future service or accrual of benefits of employees – debited or credited to the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement as part of Non Distributed Costs.
- **actuarial gains and losses** – changes in the net pensions liability that arise because events have not coincided with assumptions made at the last actuarial valuation or because the actuaries have updated their assumptions – debited to the Pensions Reserve.
- **contributions paid to the Lancashire County pension fund** – cash paid as employer's contributions to the pension fund in settlement of liabilities; not accounted for as an expense.

In relation to retirement benefits, statutory provisions require the General Fund balance to be charged with the amount payable by the Council to the Pension Fund or directly to the pensioners in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, this means that there are appropriations to and from the Pensions Reserve to remove notional debits and credits for retirement benefits and replace them with debits for the cash paid to the Pension Fund and pensioners on any such amounts payable but unpaid at the year-end. The negative balance that arises on the Pensions Reserve measures the beneficial impact to the General Fund of being required to account for retirement benefits on the basis of cash flows rather than as benefits that are earned by employees.

Discretionary Benefits

The Council also has restricted powers to make discretionary awards or retirement benefits in the event of early retirement. Any liabilities estimated to arise as a result of an award to any member of staff are accrued in the year of the decision to make the award and accounted for using the same policies as are applied to the Local Government Pension Scheme.

1.10 Events After the Balance Sheet Date

Events after the Balance Sheet date are those events, both favourable and unfavourable, that occur between the end of the reporting period and the date when the Statement of Accounts is authorised for issue. Two types of events can be identified:

- those that provide evidence of conditions that existed at the end of the reporting period – the Statement of Accounts is adjusted to reflect such events.
- those that are indicative of conditions that arose after the reporting period - the Statement of Accounts is not adjusted to reflect such events, but where a category of events would have a material effect, disclosure is made in the notes of the nature of the events and their estimated financial effect.

Events taking place after the date of authorisation for issue are not reflected in the Statement of Accounts.

1.11 Financial Instruments

Financial Liabilities

Financial liabilities are recognised on the Balance Sheet when the Council becomes a party to the contractual provisions of a financial instrument and are initially measured by fair value and are carried at their amortised cost. Annual charges to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement for interest payable are based on the carrying amount of the liability, multiplied by the effective rate of interest for the instrument. The effective interest rate is the rate that exactly discounts estimated future cash payments over the life of the instrument to the amount at which it was originally recognised.

For most of the borrowings that the Council has, this means that the amount presented in the Balance Sheet is the outstanding principal repayable (plus accrued interest); and interest charged to the Comprehensive Income and Expenditure Statement is the amount payable for the year according to the loan agreement.

Gains and losses on the repurchase or early settlement of borrowing are credited and debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement in the year of repurchase/settlement. However, where repurchase has taken place as part of a restructuring of the loan portfolio that involves the modification or exchange of existing instruments,

the premium or discount is respectively deducted from or added to the amortised cost of the new or modified loan and the write-down to the Comprehensive Income and Expenditure Statement is spread over the life of the loan by an adjustment to the effective interest rate.

Where premiums and discounts have been charged to the Comprehensive Income and Expenditure Statement, regulations allow the impact on the General Fund Balance to be spread over future years. The Council has a policy of spreading the gain or loss over the term that was remaining on the loan against which the premium was payable or discount receivable when it was repaid. The reconciliation of amounts charged to the Comprehensive Income and Expenditure Statement to the net charge required against the General Fund Balance is managed by a transfer to or from the Financial Instruments Adjustment Account in the Movement in Reserves Statement.

Financial Assets

Financial assets are classified into two types:

- loans and receivables – assets that have fixed or determinable payments but are not quoted in the active market
- available-for-sale assets – assets that have a quoted market price and/or do not have fixed or determinable payments

Loans and Receivables

Loans and receivables are recognised on the Balance Sheet when the Council becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value. They are subsequently measured at their amortised cost. Annual credits to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement for interest receivable are based on the carrying amount of the asset multiplied by the effective rate of interest for the instrument. For most of the loans that the Council has made, this means that the amount presented in the Balance Sheet is the outstanding principal receivable (plus accrued interest) and interest credited to the Comprehensive Income and Expenditure Statement is the amount receivable for the year in the loan agreement.

Where assets are identified as impaired because of a likelihood arising from a past event that payments due under the contract will not be made, the asset is written down and a charge made to the relevant service (for receivables specific to that service) or the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement. The impairment loss is measured as the difference between the carrying amount and the present value of the revised future cash flows discounted at the asset's original effective interest rate.

Any gains or losses that arise on the derecognition of an asset are credited or debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement.

Available-for-Sale Assets

Available-for-sale assets are recognised on the Balance Sheet when the Council becomes a party to the contractual provisions of a financial instrument and are initially measured and carried at fair value. Where the asset has fixed or determinable payments, annual credits to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement for interest receivable are based on the amortised cost of the asset multiplied by the effective rate of interest for the instrument. Where there are no fixed or determinable payments, income (eg dividends) is credited to the Comprehensive Income and Expenditure Statement when it becomes receivable by the Authority.

Assts are maintained in the Balance Sheet at fair value. Values are based on the following principles:

- instruments with quoted market prices – the market prices.
- other instruments with fixed and determinable payments – discounted cash flow analysis.
- equity shares with no quoted market prices – independent appraisal of company valuations.

Changes in fair value are balanced by an entry in the Available-for-Sale Reserve and the gain/loss is recognised in the Surplus or Deficit on Revaluation of Available-for-Sale Financial Assets. The exception is where impairment losses have been incurred – these are debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement, along with any net gain or loss for the asset accumulated in the Available-for-Sale Reserve.

Where assets are identified as impaired because of a likelihood from a past event that payments due under the contract will not be made (fixed or determinable payments) or fair value falls below cost, the asset is written down and a charge made to the Financing and Investment and Expenditure line in the Comprehensive Income and Expenditure Statement. If the asset has fixed or determinable payments, the impairment loss is measured as the difference between the carrying amount and the present value of the revised future cash flows discounted at the asset's original effective interest rate. Otherwise, the impairment loss is measured as any shortfall or fair value against the acquisition cost of the instrument (net of any principal repayment and amortisation).

Any gains or losses that arise on the derecognition of the asset are credited or debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement, along with any accumulated gains or losses previously recognised in the Available-for-Sale Reserve.

Where fair value cannot be measured reliably, the instrument is carried at cost (less any impairment losses).

1.12 Foreign Currency Translation

Where the Council has entered into a transaction denominated in a foreign currency, the transaction is converted into sterling at the exchange rate applicable on the date the transaction was effective. Where amounts in foreign currency are outstanding at the year-end, they are reconverted at the spot exchange rate at 31 March. Resulting gains or losses are recognised in the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement.

1.13 Government Grants and Contributions

Whether paid on account, by instalments or in arrears, government grants and third party contributions and donations are recognised as due to the authority when there is reasonable assurance that:

- the Council will comply with the conditions attached to the payments, and
- the grants or contributions will be received.

Amounts recognised as due to the Council are not credited to the Comprehensive Income and Expenditure Statement until conditions attached to the grant or contribution have been satisfied. Conditions are stipulations that specify that the future economic benefits or service potential embodied in the asset acquired using the grant or contribution are required to be consumed by the recipient as specified, or the future economic benefits or service potential must be returned to the transferor.

Monies advanced as grants or contributions for which conditions have not been satisfied are carried in the Balance Sheet as creditors. When conditions are satisfied, the grant or contribution is credited to the relevant service line (attributable revenue grants and contributions) or Taxation and Non-Specific Grant Income (non-ringfenced revenue grants and all capital grants) in the Comprehensive Income and Expenditure Statement.

Where capital grants are credited to the Comprehensive Income and Expenditure Statement, they are reversed out of the General Fund Balance in the Movement in Reserves Statement. Where the grant has yet to be used to finance capital expenditure, it is posted to the Capital Grants Unapplied reserve. Where it has been applied, it is posted to the Adjustment Account. Amounts in the Capital Grants Unapplied Reserve are transferred to the Capital Adjustment Account once they have been applied to fund capital expenditure.

Area Based Grant

Area based grant (ABG) is a general grant allocated by central government directly to local authorities as additional revenue funding. ABG is non-ringfenced and is credited to Taxation and Non-Specific Grant Income in the Comprehensive Income and Expenditure Statement.

1.14 Intangible Assets

Expenditure on non-monetary assets that do not have physical substance but are controlled by the Council as a result of past events (eg software licences) is capitalised when it is expected that future economic benefits or service potential will flow from the intangible asset to the Council.

Expenditure on the development of websites is not capitalised if the website is solely or primarily intended to promote or advertise the Council's goods or services.

Intangible assets are measured initially at cost. Amounts are only revalued where the fair value of the assets held by the Council can be determined by reference to an active market. In practice, no intangible asset held by the Council meets this criterion, and they are therefore carried at amortised cost. The depreciable amount of an intangible asset is amortised over its useful life to the relevant service line(s) in the Comprehensive Income and Expenditure Statement. An asset is tested for impairment whenever there is an indication that the asset might be impaired – any losses recognised are posted to the relevant service line(s) in the Comprehensive Income and Expenditure Statement. Any gain or loss arising on the disposal or abandonment of an intangible asset is posted to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement.

Where expenditure on intangible assets qualifies as capital expenditure for statutory purposes, amortisation, impairment losses and disposal gains and losses are not permitted to have an impact on the General Fund Balance. The gains and losses are therefore reversed out of the General Fund Balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account and (for any sale proceeds greater than £10,000) the Capital Receipts Reserve.

1.15 Inventories and Long term Contracts

Inventories are included in the Balance Sheet at the lower of cost and net realisable value. The cost of inventories is shown in the accounts at the latest replacement cost net of provision for obsolescence / reduction in value, as an estimation of the net realisable value.

Long term contracts are accounted for on the basis of charging the Surplus or Deficit on the Provision of Services with the value of works and services received under the contract during the financial year.

1.16 Investment Property

Investment properties are those that are used solely to earn rentals and/or for capital appreciation. The definition is not met if the property is used in any way to facilitate the delivery of services or production of goods or is held for sale.

Investment properties are measured initially at cost and subsequently at fair value, based on the amount at which the asset could be exchanged between knowledgeable parties at arm's length. Properties are not depreciated but are revalued annually according to market conditions at year-end. Gains and losses on revaluation are posted to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement. The same treatment is applied to gains and losses on disposal.

Rentals received in relation to properties are credited to the Financing and Investment Income line and result in a gain for the General Fund Balance. However, revaluation and disposal gains and losses are not permitted by statutory arrangements to have an impact on the General Fund Balance. The gains and losses are therefore reversed out of the General Fund Balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account and (for any sale proceeds greater than £10,000) the Capital Receipts Reserve.

1.17 Leases

Leases are classified as finance leases where the terms of the lease transfer substantially all the risks and rewards incidental to ownership of the property, plant or equipment from the lessor to the lessee. All other leases are classified as operating leases.

Where a lease covers both land and buildings, the land and building elements are considered separately for classification.

Arrangements that do not have the legal status of a lease but convey a right to use an asset in return for payment are accounted for under this policy where fulfilment of the arrangement is dependant on the use of the specific assets.

The Council as Lessee

Finance Leases

Property, plant and equipment held under finance leases are recognised on the Balance Sheet at the commencement of the lease at its fair value measured at the lease's inception (or the present value of the minimum lease payments, if lower). The asset recognised is matched by a liability for the obligation

to pay the lessor. Initial direct costs of the Council are added to the carrying amount of the asset. Premiums paid on entry into a lease are applied to writing down the lease liability. Contingent rents are charged as expenses in the periods in which they are incurred.

Lease payments are apportioned between:

- a charge for the acquisition of the interest in the property, plant or equipment – applied to write down for lease liability, and
- a finance charge (debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement).

Property, Plant and Equipment recognised under finance leases are accounted for using the policies applied generally to such assets, subject to depreciation being charged over the lease term if this is shorter than the asset's estimated useful life (where ownership of the asset does not transfer to the authority at the end of the lease period).

The Council is not required to raise council tax to cover depreciation or revaluation and impairment losses arising on leased assets. Instead, a prudent annual contribution is made from revenue funds towards the deemed capital investment in accordance with statutory requirements. Depreciation and revaluation and impairments losses are therefore substituted by revenue contribution in the General Fund Balance, by way of an adjusting transaction with the Capital Adjustment Account in the Movement in Reserves Statement for the difference between the two.

Operating Leases

Rentals paid under operating leases are charged to the Comprehensive Income and Expenditure Statement as an expense of the services benefitting from use of the leased property, plant or equipment. Charges are made on a straight-line basis over the life of the lease; even if this does not match the pattern of payments (eg there is a rent-free period at the commencement of the lease).

The Authority as Lessor

Finance Leases

Where the Council grants a finance lease over a property or item of plant or equipment, the relevant asset is written out of the Balance Sheet as a disposal. At the commencement of the lease, the carrying amount of the asset in the Balance Sheet (whether Property, Plant and Equipment or Assets Held for Sale) is written off to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal. A gain, representing the Council's net investment in the lease, is credited to the same line in the Comprehensive Income and Expenditure Statement also as part of the gain or loss on disposal (i.e. netted off against the carry value of the asset at the time of disposal), matched by a lease (long-term debtor) asset in the Balance Sheet.

Lease rentals receivable are apportioned between:

- a charge for the acquisition of the interest in the property – applied to write down the lease debtor (together with any premium received), and
- finance income (credited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement).

The gain credited to the Comprehensive Income and Expenditure Statement on disposal is not permitted by statute to increase the General Fund Balance and is required to be treated as a capital receipt. Where a premium has been received, this is posted out of the General Fund Balance to the Capital Receipts Reserve in the Movement in Reserves Statement. Where the amount due in relation to the lease asset is to be settled by the payment of rentals in future financial years, this is posted out of the General Fund balance to the Deferred Capital Receipts Reserve in the Movement in Reserves Statement. When the future rentals are received, the element for the capital receipt for the disposal of the asset is used to write down the lease debtor. At this point, the deferred capital receipts are transferred to the Capital Receipts Reserve.

The written-off value of disposals is not a charge against council tax, as the cost of fixed assets is fully provided under separate arrangements for capital financing. Amounts are therefore appropriated to the Capital Adjustment Account from the General Fund Balance in the Movement in Reserves Statement.

Operating Leases

Where the Council grants an operating lease over a property or an item of plant or equipment, the asset is retained in the Balance Sheet. Rental income is credited to the Other Operating expenditure line in the Comprehensive Income and Expenditure Statement. Credits are made on a straight-line basis over the life of the lease, even if this does not match the pattern of payments (eg there is a premium paid on the commencement of the lease). Initial direct costs incurred in negotiating and arranging the lease are added to the carrying amount of the relevant asset and charged as an expense over the lease term on the same basis as rental income.

1.18 Overheads and Support Services

The costs of overheads and support services are charged to those that benefit from the supply or service in accordance with the costing principles of CIPFA *Best Value Accounting Code of Practice 2010/11* (BVACOP). The total absorption costing principle is used – the full costs of overheads and support services are shared between users in proportion to the benefits received, with the exception of:

- **Corporate and Democratic Core** – costs relating to the Council’s status as a multi-functional, democratic organisation
- **Non Distributed Costs** – the cost of discretionary benefits awarded to employers retiring early and impairment losses chargeable on Assets Held for Sale.

These two cost categories are defined in BVACOP and accounted for as separate headings in the Comprehensive Income and Expenditure Statement, as part of Net Expenditure on Continuing Services.

1.19 Property, Plant and Equipment

Assets that have physical substance and are held for use in the production or supply of goods or services, for rental to others, or for the administrative purposes and that are expected to be used during more than one financial year are classified as Property, Plant and Equipment.

Recognition

Expenditure on the acquisition, creation or enhancement of Property, Plant or Equipment is capitalised on an accruals basis, provided that it is probable that the future economic benefits or service potential associated with the item will flow to the Council and the cost of the item can be measured reliably. Expenditure that maintains but does not add to the asset’s potential to deliver future economic benefits or service potential (ie repairs and maintenance) is charged as an expense when it is incurred.

Measurement

Assets are initially measured at cost, comprising:

- the purchase price
- any costs attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management
- the initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located.

The Council does not capitalise borrowing costs incurred whilst assets are under construction.

The costs of assets acquired other than by purchase are deemed to be its fair value, unless the acquisition does not have commercial substance (i.e. it will not lead to a variation in the cash flows of the Council). In the latter case, where an asset is acquired via an exchange, the cost of the acquisition is the carrying amount of the asset given up by the Council.

Donated assets are measured initially by fair value. The difference between fair value and any consideration paid is credited to the Taxation and Non-Specific Grant Income line of the Comprehensive Income and Expenditure Statement, unless the donation has been made conditionally. Until the conditions are satisfied, the gain is held in the Donated Assets Account. Where gains are credited to the Comprehensive Income and Expenditure Statement, they are reversed out of the General Fund Balance to the Capital Adjustment Account in the Movement in Reserves Statement.

Assets are then carried in the Balance Sheet using the following measurement basis:

- infrastructure, community assets and assets under construction – depreciated historical cost
- dwellings – fair value, determined using the basis of existing use value for social housing (EUV-SH)
- all other assets – fair value, determined as the amount that would be paid for the asset in its existing use (existing use value – EUV).

Where there is no market-based evidence of fair value because of the specialist nature of an asset, depreciated replacement cost (DRC) is used as an estimate of fair value.

Where non-property assets that have short useful lives or low values (or both), depreciated historic cost basis is used as a proxy for fair value.

Assets included in the Balance Sheet at fair value are revalued sufficiently regularly (but as a minimum every five years) to ensure that their carrying amount is not materially different from their fair value at the year-end. Increases in valuation are matched by credits to the Revaluation Reserve to recognise unrealised gains. Exceptionally, gains might be credited to the Comprehensive Income and Expenditure Statement where they arise from the reversal of a loss previously charged to a service.

Where decreases in value are identified, they are accounted for by:

- where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains)
- where there is no balance in the Revaluation Reserve or an insufficient balance, the carrying amount of the asset is written down against the relevant service line(s) in the Comprehensive Income and Expenditure Statement.

The Revaluation Reserve contains revaluation gains recognised since 1 April 2007 only, the date of its formal implementation. Gains arising before that date have been consolidated into the Capital Adjustment Account.

Impairment

Assets are assessed at each year-end as to whether there is any indication that an asset may be impaired. Where indications exist and any possible differences are estimated to be material, the recoverable amount of an asset is estimated and, where this is less than the carrying amount of the asset, an impairment loss is recognised for the shortfall.

Where impairment losses are identified, they are accounted for by;

- where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains)
- where there is no balance in the Revaluation Reserve or an insufficient balance, the carry amount of the asset is written down against the relevant service line(s) in the Comprehensive Income and Expenditure Statement.

Where an impairment loss is reversed subsequently, the reversal is credited to the relevant service line(s) in the Comprehensive Income and Expenditure Statement, up to the amount of the original loss, adjusted for depreciation that would have been charged if the loss had not been recognised.

Depreciation

Depreciation is provided for on all Property, Plant and Equipment assets by the sympathetic allocation of their depreciable amounts over the time of their useful lives. An exception is made for assets without a determinable finite useful life (ie freehold land and certain Community Assets) and assets that are not yet available for use (ie assets under construction).

Depreciation is calculated on the following basis:

- **dwellings and other buildings** – straight-line allocation over the useful life of the property as estimated by the valuer
- **vehicles, plant, furniture and equipment** – straight-line allocation over 10 to 15 years depending on the type of asset

- **infrastructure** – straight-line allocation over 10 to 40 years depending on the type of asset.

Where an item of Property, Plant and Equipment asset has major components whose cost is significant in relation to the total cost of the item, the components are depreciated separately.

Revaluation gains are also depreciated, with an amount equal to the difference between current value depreciation charged on assets and the depreciation that would have been chargeable based on the historical cost being transferred each year from the Revaluation Reserve to the Capital Adjustment Account.

Disposals and Non-current Assets Held for Sale

When it becomes probable that the carrying amount of an asset will be recovered principally through a sale transaction rather than through its continual use, it is reclassified as an Asset Held for Sale. The asset is revalued immediately before reclassification and then carried at the lower of this amount and fair value less costs to sell. Where there is a subsequent decrease to fair value less costs to sell, the loss is posted to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement. Gains in fair value are recognised only up to the amount of any previously losses recognised in the Surplus or Deficit on Provision of Services. Depreciation is not charged on Assets Held for Sale.

If assets no longer meet the criteria to be classified as Assets Held for Sale, they are reclassified back to non-current assets and valued at the lower of their carrying amount before they were classified as held for sale; adjusted for depreciation, amortisation or revaluations that would have been recognised had they not been classified as Held for Sale, and their recoverable amount at the date of the decision not to sell.

Assets that are abandoned or scrapped are not reclassified as Assets Held for Sale.

When an asset is disposed of or decommissioned, the carrying amount of the asset in the Balance Sheet (whether Property, Plant or Equipment or Assets Held for Sale) is written off to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal. Receipts from disposals (if any) are credited to the same line in the Comprehensive Income and Expenditure Statement also as part of the gain or loss on disposal (ie netted off against the carrying value of the asset at the time of disposal). Any revaluation gains accumulated for the asset in the Revaluation Reserve are transferred to the Capital Adjustment Account.

Amounts received for a disposal in excess of £10,000 are categorised as capital receipts. A proportion of receipts relating to housing disposals (75% for dwellings, 50% for land and other assets, net of statutory deductions and allowances) is payable to the Government. The balance of receipts is required to be credited to the Capital Receipts Reserve, and can then only be used for new capital investment or set aside to reduce the Council's underlying need to borrow (the capital financing requirement). Receipts are appropriated to the Reserve from the General Fund Balance in the Movement in Reserves Statement.

The written-off value of disposals is not a charge against council tax, as the cost of fixed assets is fully provided for under the separate arrangements for capital financing. Amounts are appropriated to the Capital Adjustment Account from the General Fund Balance in the Movement in Reserves Statement.

1.20 Provisions, Contingent Liabilities and Contingent Assets.

Provisions

Provisions are made where an event has taken place that gives the Council a legal or constructive obligation that probably requires settlement by a transfer of economic benefits or service potential, and a reliable estimate can be made of the amount of the obligation. For instance, the Council may be involved in a court case that could eventually result in the making of a settlement or the payment of compensation.

Provisions are charged as an expense to the appropriate service line in the Comprehensive Income and Expenditure Statement in the year that the authority becomes aware of the obligation, and are measured at the best estimate at the Balance Sheet date of the expenditure required to settle the obligation, taking into account relevant risks and uncertainties.

When payments are eventually made, they are charged to the provision carried in the Balance Sheet. Estimated settlements are reviewed at the end of each financial year – where it becomes less than

probable that a transfer of economic benefits will now be required (or a lower settlement than anticipated is made), the provision is reversed and credited back to the relevant service.

Where some or all of the payment required to settle a provision is expected to be recovered from another party (eg from an insurance claim), this is only recognised as income for the relevant service if it is virtually certain that reimbursement will be received if the authority settles the obligation.

Contingent Liabilities

A contingent liability arises where an event has taken place that gives the Council a possible obligation whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the Council. Contingent liabilities also arise in circumstances where a provision would otherwise be made but either it is not probable that an outflow of resources will be required or the amount of the obligation cannot be measured reliably.

Contingent liabilities are not recognised in the Balance Sheet but disclosed in a note to the accounts.

Contingent Assets

A contingent asset arises where an event has taken place that gives the authority a possible asset whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the Council.

Contingent assets are not recognised in the Balance Sheet but disclosed in a note to the accounts where it is probable that there will be an inflow of economic benefits or service potential.

1.21 Reserves

The Council sets aside specific amounts as reserves for future policy purposes or to cover contingencies. Reserves are created by appropriating amounts out of the General Fund Balance in the Movement in Reserves Statement. When expenditure to be financed from a reserve is incurred, it is charged to the appropriate service in that year to score against the Surplus and Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement. The reserve is then appropriated back into the General Fund Balance in the Movement in Reserves Statement so that there is no net charge against council tax for the expenditure.

Certain reserves are kept to manage the accounting processes for non-current assets, financial instruments, retirement and employee benefits and do not represent usable resources for the Council – these reserves are explained in the relevant policies.

1.22 Revenue Expenditure Funded from Capital under Statute

Expenditure incurred during the year that may be capitalised under statutory provisions but that does not result in the creation of a non-current asset is charged as expenditure to the relevant service in the Comprehensive Income and Expenditure Statement in the year. Where the Council has determined to meet the cost of this expenditure from existing capital resources or by borrowing, a transfer in the Movement in Reserves Statement from the General Fund Balance to the Capital Adjustment Account then reverses out the amounts charged so that there is no impact on the level of council tax.

1.23 Value Added Tax (VAT)

VAT payable is included as an expense only to the extent that it is not recoverable from Her Majesty's Revenue and Customs. VAT receivable is excluded from income.

2 RESTATEMENT OF PRIOR YEAR ACCOUNTS

The Statement of Accounts for 2010/11 is the first to be prepared on an IFRS basis. Adoption of the IFRS based Code has resulted in the restatement of various balances and transactions, with the result that some amounts presented in the financial statements are different from the equivalent figures presented in the Statement of Accounts for 2009/10.

The following tables explain the material differences between the amounts presented in the 2009/10 financial statements and the equivalent amounts presented in the 2010/11 financial statements.

Short-term accumulating compensated absences

Short-term accumulating compensated absences refers to benefits that employees receive as part of their contract of employment entitlement to which is built up as they provide services to the council. The most significant benefit covered by this heading is holiday pay.

Employees build up an entitlement to paid holiday as they work. Under the Code, the cost of providing holidays and similar benefits is required to be recognised when employees render services that increase their entitlement to future compensated absences. As a result, the council is required to accrue for any annual leave earned but not taken at 31 March each year. Under the previous accounting arrangements, no such accrual was required.

The government has issued regulations that mean local authorities are only required to fund holiday pay and similar benefits when they are used, rather than when employees earn the benefits. Amounts are transferred to the Accumulated Absences Account until the benefits are used.

Leases

Under the Code, leases of property are accounted for as separate leases of land and buildings. Previously, each property lease would have been accounted for as a single lease. The change in accounting treatment can result in the land or building element of the lease being accounted for as an operating lease where it was previously treated as a finance lease; or as a finance lease where it was previously treated as an operating lease.

The government has issued regulations and statutory guidance in relation to accounting for leases. Under these arrangements, the annual charge to the General Fund (where the council is the lessee) will be unchanged. Where the council is the lessor, the regulations allow the council to continue to treat the income from existing leases in the same way as it accounted for the income prior to the introduction of the Code.

Government Grants

Under the Code, grants and contributions for capital schemes are recognised as income when they become receivable. Previously, grants were held in a grants deferred account and recognised as income over the life of the assets which they were used to fund.

As a consequence of adopting the accounting policy required by the Code, the financial statements have been amended as follows:

- The balance on the Government Grants Deferred Accounts at 31 March 2009 has been transferred to the Capital Adjustment Account in the opening 01 April 2009 Balance Sheet.
- Portions of government grant deferred were previously recognised as income in 2009/10; these have been removed from the Comprehensive Income and Expenditure Statement in the comparative figures.

There is no change to the General Fund Balance, as capital grant income is transferred out of the General Fund under both the previous and current accounting policies.

A reconciliation of the changes to the 2009/10 accounts is as follows:

Comprehensive Income and Expenditure Statement

	Gross Exp	Gross Inc	NET	Accumulated Absences	Finance Leases	Revaluation of Investment Properties	Govt Grants	Other Prior Year Adjs on Fixed Assets	Other CIE	Restated 2009/10 Balance

3 CRITICAL JUDGEMENTS IN APPLYING ACCOUNTING POLICIES

In applying the accounting policies set out in Note 1. the Authority has had to make certain judgements about complex transactions or those involving uncertainty about future events. The critical judgements made in the Statement of Accounts are:

- There is a high degree of uncertainty about future levels of funding for local government. However, the Authority has determined that this uncertainty is not yet sufficient to provide an indication that the assets of the Authority might be impaired as a result of a need to close facilities and reduce levels of service provision.
- As at 31 March the Council still had £4.94M deposits outstanding with three Icelandic banks that are in administration. A decision by the Icelandic District Court effectively gives the Council preferred creditor status for £4M of the investments outstanding (in Glitnir and Landsbanki) and if retained this should improve recovery prospects. The final outcome is currently subject to appeal through the Icelandic Supreme Court, however, and so the impairment on these deposits has not been re-measured since determining the closing 2009/10 values. This will only be done when there is a final decision from the Icelandic courts, to mitigate the risk of the Council's priority status being overturned. The values for the remaining deposit in KSF, which is not subject to the ruling over creditor status, have been re-measured in line with the latest CIPFA LAAP bulletin (82, update 4), which has resulted in £220K being written back against a £2.1M capitalisation directive applied in 2009/10, reducing the Council's underlying borrowing requirement (Capital Financing Requirement).

4 ASSUMPTIONS MADE ABOUT THE FUTURE AND OTHER MAJOR SOURCES OF ESTIMATION UNCERTAINTY

The Statement of Accounts contains estimated figures that are based on assumptions made by the Authority about the future or that are otherwise uncertain. Estimates are made taking into account historical experience, current trends and other relevant factors. However, because balances cannot be determined with certainty, actual results could be materially different from the assumptions and estimates.

The items in the Authority's Balance Sheet at 31 March 2011 for which there is a significant risk of material adjustment in the forthcoming financial year are as follows:

Item	Uncertainties	Effect if Actual Results Differ from Assumptions
Impairment Reserve	The Authority has set aside an amount it estimates would need to be applied to write off losses relating to investments in failed Icelandic banks. The amount set aside assumes a worse case scenario whereby the Authority does not receive preferred creditor status.	If the current decision to grant preferred creditor status is upheld at appeal then the application of the remaining capitalisation directive will be reversed and the majority of the impairment reserve will not be required. This will have a material impact on the Council's combined reserves; the indicative value is £3M.

5 EVENTS AFTER THE BALANCE SHEET DATE

The Statement of Accounts was authorised for issue by the Head of Financial Services on 30 June 2011. Events taking place after this date are not reflected in the financial statements or notes.

Where events have taken place before 30 June and they provided information about conditions existing at 31 March 2011, the figures in the financial statement and notes would be adjusted as appropriate in all material respects to reflect the impact of this information. There have been no such events after the balance sheet date leading to such adjustments, however.

6 ADJUSTMENTS BETWEEN ACCOUNTING BASIS AND FUNDING BASIS UNDER REGULATION

This note details the adjustments that are made to the total comprehensive income and expenditure recognised by the Authority in the year in accordance with proper accounting practice to the resources that are specified by statutory provisions as being available to the Authority to meet future capital and revenue expenditure.

2009/10 Comparative Figures

	Usable Reserves						
	General Fund Balance £000	Housing Revenue Account £000	Capital Receipts Reserve £000	Major Repairs Reserve £000	Earmarked Reserves £000	Capital Grants Unapplied £000	Movement in Unusable Reserves £000
Adjustments primarily involving the Capital Adjustment Account:							
Reversal of items debited or credited to the Comprehensive Income and Expenditure Statement:							
Charges for depreciation and impairment of non-current assets	(6,310)	(11,833)					18,143
Revaluation losses on Property Plant and Equipment							
Movements in the market value of Investment Properties							
Amortisation of intangible assets							
Capital grants and contributions applied	5,658	2					(5,660)
Movement in the Donated Assets Account							
Revenue expenditure funded from capital under statute	(4,238)						4,238
Amounts of non-current assets written off on disposal or sale as part of the gain/loss on disposal to the Comprehensive Income and Expenditure Statement	(659)	(62)					721
Insertion of items not debited or credited to the Comprehensive Income and Expenditure Statement:							
Statutory provision for the financing of capital investment	2,076						(2,076)
Capital expenditure charged against the General Fund and HRA balance	345	1,153					(1,498)
Adjustments primarily involving the Capital Grants Unapplied Account:							
Capital grants and contributions unapplied credited to the Comprehensive Income and Expenditure Statement							
Application of grants to capital financing transferred to the Capital Adjustment Accounts							
Adjustments primarily involving the Capital Receipts Reserve:							
Transfer of cash sale proceeds credited as part of the gain/loss on disposal to the Comprehensive Income and Expenditure Statement	707	128	(835)				
Use of the Capital Receipts Reserve to finance new capital expenditure							
Contribution from the Capital Receipts Reserve towards administrative costs of non-current asset disposals							
Contribution from the Capital Receipts Reserve to finance the payments to the Government capital receipts pool	(88)		88				
Transfer from Deferred Capital Receipts Reserve upon receipt of cash							
Adjustments primarily involving the Deferred Capital Receipts Reserve:							
Transfer of deferred sale proceeds credited as part of the gain/loss on disposal to the Comprehensive Income and Expenditure Statement							
Adjustment primarily involving the Major Repairs Reserve:							
Reversal of Major Repairs Allowance credited to the HRA		(2,304)		2,304			
Use of the Major Repairs Reserve to finance new capital expenditure		2,448		(2,448)			
Adjustments primarily involving the Financial Instruments Adjustment Account:							
Amount by which finance costs charged to the Comprehensive Income and Expenditure Statement are different from finance costs chargeable in the year in accordance with statutory requirements	1,201	158					(1,359)
Adjustments primarily involving the Pension Reserve:							
Reversal of items relating to retirement benefits debited or credited to the Comprehensive Income and Expenditure Statement	(18,537)	(295)					18,832
Employer's pension contributions and direct payments to pensioners payable in the year							
Adjustments primarily involving the Collection Fund Adjustment Account:							
Amount by which council tax income credited to the Comprehensive Income and Expenditure Statement is different from council tax income calculated for the year in accordance with statutory requirements	39						(39)
Adjustments relating to revaluation reserve amounts recognised in other comprehensive income and expenditure	(2,310)						2,310
Adjustments relating to other comprehensive income and expenditure							
Appropriations to/from earmarked reserves	1,737	388			(2,125)		
Adjustments to employee absences account	(3)	(21)					24
Total Adjustments	(20,382)	(10,238)	(747)	(144)	(2,125)	0	33,636
Total adjustment to Comprehensive Income and Expenditure	(30,620)						

	Usable Reserves						
	General Fund Balance £000	Housing Revenue Account £000	Capital Receipts Reserve £000	Major Repairs Reserve £000	Earmarked Reserves £000	Capital Grants Unapplied £000	Movement in Unusable Reserves £000
Adjustments primarily involving the Capital Adjustment Account:							
Reversal of items debited or credited to the Comprehensive Income and Expenditure Statement:							
Charges for depreciation and impairment of non-current assets	(4,190)	(34,141)					38,331
Revaluation losses on Property Plant and Equipment							
Movements in the market value of Investment Properties	4,719	205					(4,924)
Amortisation of intangible assets	(151)	(12)					163
Capital grants and contributions applied	3,314						(3,314)
Movement in the Donated Assets Account							
Revenue expenditure funded from capital under statute	(2,197)						2,197
Amounts of non-current assets written off on disposal or sale as part of the gain/loss on disposal to the Comprehensive Income and Expenditure Statement	(858)	(98)					956
Insertion of items not debited or credited to the Comprehensive Income and Expenditure Statement:							
Statutory provision for the financing of capital investment	2,120						(2,120)
Capital expenditure charged against the General Fund and HRA balance	459	1,823					(2,282)
Adjustments primarily involving the Capital Grants Unapplied Account:							
Capital grants and contributions unapplied credited to the Comprehensive Income and Expenditure Statement	373					(373)	
Application of grants to capital financing transferred to the Capital Adjustment Accounts							
Adjustments primarily involving the Capital Receipts Reserve:							
Transfer of cash sale proceeds credited as part of the gain/loss on disposal to the Comprehensive Income and Expenditure Statement	481	208	(689)				
Use of the Capital Receipts Reserve to finance new capital expenditure			719				(719)
Contribution from the Capital Receipts Reserve towards administrative costs of non-current asset disposals							
Contribution from the Capital Receipts Reserve to finance the payments to the Government capital receipts pool	(158)		158				
Transfer from Deferred Capital Receipts Reserve upon receipt of cash			(7)				7
Adjustments primarily involving the Deferred Capital Receipts Reserve:							
Transfer of deferred sale proceeds credited as part of the gain/loss on disposal to the Comprehensive Income and Expenditure Statement							
Adjustment primarily involving the Major Repairs Reserve:							
Reversal of Major Repairs Allowance credited to the HRA		2,307		(2,307)			
Use of the Major Repairs Reserve to finance new capital expenditure		(2,825)		2,593	173		59
Adjustments primarily involving the Financial Instruments Adjustment Account:							
Amount by which finance costs charged to the Comprehensive Income and Expenditure Statement are different from finance costs chargeable in the year in accordance with statutory requirements		158					(158)
Adjustments primarily involving the Pension Reserve:							
Reversal of items relating to retirement benefits debited or credited to the Comprehensive Income and Expenditure Statement	20,191	549					(23,698)
Employer's pension contributions and direct payments to pensioners payable in the year	2,561	397					
Adjustments primarily involving the Collection Fund Adjustment Account:

Depreciation

The following useful lives and depreciation rates have been used in the calculation of depreciation:

- Council Dwellings – depreciated using Major Repairs Allowance as a proxy
- Other Land and Buildings – 5-40 years
- Vehicles, Plant, Furniture and Equipment – 10-15 years
- Infrastructure – 10-40 years

Capital Commitments

At 31 March 2011, the Authority has entered into a number of contracts for the construction or enhancement of Property, Plant and Equipment in 2010/11 and future years budgeted to cost £1.987M. Similar commitments at 31 March 2010 were £983K. The major commitments are:

■ Council Housing Choice Based Lettings	£67,000
■ Council Housing Interior Refurbishments	£16,000
■ Luneside East Lands Tribunal	£232,000
■ Strategic Housing Developments	£29,000
■ Artle Beck Flood Alleviation Scheme	£126,000
■ Municipal Building Works	£1,513,000

Revaluations

The Authority carries out a rolling programme that ensures that all Property, Plant and Equipment required to be measured at fair value is revalued at least every five years, with Investment property being revalued annually. All valuations were carried out internally by professionally qualified valuers. Valuations of land and buildings were carried out in accordance with the methodologies and bases for estimation set out in the professional standards of the Royal Institute of Chartered Surveyors. Carrying values of vehicles, plant, furniture and equipment are based on depreciated cost.

The significant assumptions applied in estimating the fair values are:

- Values are given as at 01 April for the given year.
- Existing Use Market values are used except where items are of a specialist nature when depreciated historic cost is used as a proxy, or for investment properties where the highest and best consideration is used.

	Council Dwellings	Other Land and Buildings	Vehicles, Plant, Furniture and Equip't	Surplus Assets	Total
	£000	£000	£000	£000	£000
Carried at historical cost	59,732	10,881	11,573	235	82,422

12 INVESTMENT PROPERTIES

The following items of income and expense have been accounted for in the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement

	2009/10	2010/11
	£000	£000
Rental income from investment property	1,722	1,587
Direct operating expenses arising from investment property	(1,650)	(1,719)
Net gain/(loss)	72	(132)

There are no restrictions on the Authority's ability to realise the value inherent in its investment property or on the Authority's right to the remittance of income and the proceeds of disposal. The Authority has no contractual obligations to purchase, construct or develop investment property or repairs, maintenance or enhancement.

The following table summarises the movement in the fair value of investment properties over the year.

	2009/10	2010/11
	£000	£000
Balance at start of the year	20,052	19,827
Additions:		
■ Purchases	0	0
■ Construction	11	0
■ Subsequent expenditure	0	12
Disposals:	(225)	(61)
Net gains/losses from fair value adjustments	75	5,045
Transfers:		
■ to/from Inventories	0	0
■ to/from Property, Plant & Equipment	30	2,090
Other changes	(116)	0
Balance at end of the year	19,827	26,913

13 INTANGIBLE ASSETS

The Authority accounts for its software as intangible assets, to the extent that the software is not an integral part of a particular IT system and accounted for as part of the hardware item of Property, Plant and Equipment.

All software is given a finite useful life, based on assessments of the period that the software is expected to be of use to the Authority. The useful life assigned to the major software suites used by the Authority is 5 years.

Software licenses are held for the Salt Ayre income management system, Local Land and Property Gazetteer, Housing Rents and Repairs system, Cash Receipting system, National Non Domestic Rating system, Asset Management system, PC based software and Customer Relationship Management System.

	2009/10	2010/11
	£000	£000
Balance at start of year:		
■ Gross carrying amounts	1,029	730
■ Accumulated amortisation	(554)	(424)
Net carrying amount at start of year	475	306
Additions:		
■ Purchases	47	90
Assets reclassified as held for sale	0	0
Revaluations increases or decreases	0	0
Impairment losses recognised or reversed directly in the Revaluation Reserve	0	0
Impairment losses recognised in the Surplus/Deficit on the Provision of Services	0	0
Reversals of past impairment losses written back to the Surplus/Deficit on the Provision of Services	0	0
Amortisation for the period	(216)	(163)
Net carrying amount at the end of year	306	233
Comprising:		
■ Gross carrying amounts	730	723
■ Accumulated amortisation	(424)	(490)
	306	233

In line with the Code, Intangible assets are carried at amortised cost.

14 FINANCIAL INSTRUMENTS

Fair Values of Assets and Liabilities

Financial liabilities, financial assets represented by loans and receivables and long-term debtors and creditors are carried in the Balance Sheet at amortised cost. Carrying values are assumed to be equal to the fair value of short term assets and liabilities held. The value of long term creditors is reviewed at each balance sheet date based on the current values outstanding and best estimates of amounts required to settle liabilities of uncertain timing or amount. PWLB loans are the only financial instrument where the fair value is judged to be different from the carrying amount. The fair value is calculated based on premature repayment rates between 4.09% and 4.14%.

	31 March 2010		31 March 2011	
	Carrying amount	Fair value	Carrying amount	Fair value
	£000	£000	£000	£000
Financial liabilities	53,532	64,592	50,332	62,955
Long-term creditors & provisions	653	653	710	710

The fair value of the liabilities is greater (a larger liability) than the carrying amount because the current market rates are below that of the Council's existing debt. The fair value adjustment is estimated using the early repayment premia that would be applicable at the balance sheet date.

	31 March 2010		31 March 2011	
	Carrying amount	Fair value	Carrying amount	Fair value
	£000	£000	£000	£000
Loans and receivables	10,395	10,395	11,778	11,778
Long-term debtors	19	19	14	14

The amortised cost of assets is judged as a fair measure of their fair value, the vast majority of these being current assets.

20 PROVISIONS

	REVENUE		CAPITAL	
	Insurance £000	Williamson Park £000	General Fund Clawback £000	Total £000
Balance at 1 April 2010	273	100	57	430
Additional provisions made	264	0	0	264
Amounts used	(207)	0	0	(207)
Balance at 31 March 2011	330	100	57	487

The closing balance on the insurance provision is in respect of outstanding insurance claims to be settled by the Council. The Council provides an element of self insurance whereby it pays varying levels of excess depending upon the type of insurance policy. The balance on the provision is assessed throughout the year to ensure it is sufficient to meet all anticipated claims.

During 2010/11 Williamson Park Limited ceased trading and the management of the park transferred to the Council. As part of this process the company is being wound up and at some point during 2011/12 the Council will need to cover the remaining net current liabilities.

The clawback provision is in respect of outstanding liabilities where the Council has sold land originally financed by Derelict Land Grant.

21 USABLE RESERVES

Movements in the Authority's usable reserves are detailed in the Movement in Reserves Statement and in the following tables.

	31 March 2010	31 March 2011
	£000	£000

Accumulated Absences Account	(193)	(214)
Collection Fund Adjustment Account	30	38
Total unusable reserves	172,575	164,784

Revaluation Reserve

The Revaluation Reserve contains the gains made by the Authority arising from increases in the value of it Property, Plant and Equipment. The balance is reduced when assets with accumulated gains are:

- revalued downwards or impaired and the gains are lost
- used in the provision of services and the gains are consumed through depreciation, or
- disposed of and the gains are realised.

The Reserve contains only revaluation gains accumulated since 01 April 2007, the date that the Reserve was created. Accumulated gains arising before that date are consolidated into the balance on the Capital Adjustment Account.

	2009/10	2010/11
	£000	£000
Balance at 1 April	14,845	12,244
Upwards revaluation of assets	7,669	789
Downwards revaluation of assets and impairment losses not charged to the Surplus/Deficit on the Provision of Services.	(9,994)	(4,069)
Surplus or deficit on the revaluation of non-current assets not posted to the Surplus/Deficit on the Provision of Services.	(2,325)	(3,280)
Difference between fair value depreciation and historical cost depreciation.	(264)	(212)
Accumulated gains on assets sold or scrapped.	(12)	0
Amount written off to the Capital Adjustment Account.	(276)	(213)
Balance at 31 March	12,244	8,752

Capital Adjustment Account

The Capital Adjustment Account absorbs the timing differences arising from the different arrangements for accounting for the consumption of non-current assets and for financing the acquisition, construction or enhancement of those assets under statutory provisions. The Account is debited with the cost of acquisition, construction or enhancement as depreciation, impairment losses and amortisations are charged to the Comprehensive Income and Expenditure Statement (with reconciling postings from the Revaluation Reserve to convert fair value figures to a historical cost basis). The Account is credited with the amounts set aside by the Authority as finance for the costs of acquisition, construction or enhancement.

The Account contains accumulated gains and losses on Investment Properties and gains recognised on donated assets that have yet to be consumed by the Authority.

The Account also contains revaluation gains accumulated on Property, Plant and Equipment before 01 April 2007, the date that the Revaluation Reserve was created to hold such gains.

Note 6 provides details of the source of all the transactions posted to the Account, apart from those involving the Revaluation Reserve.

	2009/10	2010/11
	£000	£000
Balance at 1 April	233,098	220,885
Reversal of items relating to capital expenditure debited or credited to the Comprehensive Income and Expenditure Statement:		
■ Charges for depreciation and impairment of non current assets	(20,563)	(40,724)
■ Amortisation of Intangible Assets	(215)	(164)
■ Revenue Expenditure funded from Capital under statute.	(4,040)	(2,196)
■ Amounts of non current assets written of on disposal or sale as part of the gain/loss on disposal to the Comprehensive Income and Expenditure Statement	(702)	(956)
Sub total	207,578	176,845
Adjusting amounts written out of the Revaluation Reserve	274	213
Net written out amount of the cost of non current assets consumed in the year.	207,852	177,058
Capital financing applied in the year:		
■ Use of Capital Receipts Reserve	1,409	718
■ Use of the Major Repairs Reserve	2,304	2,767
■ Capital grants and contributions credited to the Comprehensive Income and Expenditure Statement (including those in respect of donated assets)	5,670	3,314
■ Application of grants to capital financing from the Capital Grants Unapplied Account.	0	0
■ Statutory provision for the financing of capital investment charged against General Fund and HRA balances	2,076	2,121
■ Capital expenditure charged against the General Fund and HRA balances	1,499	1,823
Sub total	220,810	187,801
Movements in the market value of Investment Properties debited or credited to the Comprehensive Income and Expenditure statement	75	4,947
Movement in the Donated Asset Account credited to the Comprehensive Income and Expenditure Statement	0	0
Balance at 31 March	220,885	192,748

Financial Instruments Adjustment Account (FIAA)

The Financial Instruments Adjustment Account absorbs the timing differences arising from the different arrangements for accounting for income and expenses relating to certain financial instruments and for bearing losses or benefiting from gains in line with statutory provisions. The Authority uses the Account to manage premiums and discounts paid on the early redemption of loans. Premiums and discounts are debited to the Comprehensive Income and Expenditure Statement when they are incurred, but reversed out of the General Fund and HRA balance to the FIAA in the Movement in Reserves Statement. Over time, the expense and income is posted back to the General Fund Balance in accordance with statutory arrangements for spreading the burden on council tax. In the Authority's case, this period is the unexpired term that was outstanding on the loans when they were redeemed. As a result, the balance on the Account at 31 March 2011 will be reversed into the General Fund over the next 41 years. The element relating to the HRA will be effectively written off in 2016/17.

	2009/10	2010/11
	£000	£000
Balance at 1 April	(2,027)	(667)
Net reversal of Icelandic bank impairments and notional interest	1,201	0
Premiums and discounts incurred in previous years to be charged against the General Fund and HRA in accordance with statutory requirements	159	158
Balance at 31 March	(667)	(509)

Pensions Reserve

The Pensions Reserve absorbs the timing differences arising from the different arrangements for accounting for post employment benefits and for funding benefits in accordance with statutory provisions. The Authority accounts for post employment benefits in the Comprehensive Income and Expenditure Statement as the benefits are earned by employees accruing years of service, updating the liabilities recognised to reflect inflation, and changing assumptions and investment returns on any resources set aside to meet such costs. However, statutory arrangements require pensions to be financed as the Authority makes employer's contributions to pension funds or eventually pays any

pensions for which it is directly responsible. The debit balance on the Pension Reserve therefore shows a substantial shortfall in the benefits earned by past and current employees and the resources the Authority has set aside to meet them. The statutory arrangements will ensure that funding will have been set aside by the time the benefits come to be paid.

	2009/10	2010/11
	£000	£000
Balance at 1 April	(40,910)	(59,743)
Actuarial gains or losses on pensions assets and liabilities	(16,627)	16,946
Reversal of items relating to the retirement benefits debited or credited to the Surplus or Deficit on the Provision of Services	(5,433)	2,867
Employer's pension contribution and direct payments to pensioners payable in the year	3,227	3,885
Balance at 31 March	(59,743)	(36,045)

Collection Fund Adjustment Account

The Collection Fund Adjustment Account manages the differences arising from the recognition of council tax income in the Comprehensive Income and Expenditure Statement as it falls due from council tax payers compared with the statutory arrangements for paying across amounts to the General Fund from the Collection Fund.

	2009/10	2010/11
	£000	£000
Balance at 1 April	0	30
Amount by which council tax income credited to Comprehensive Income and Expenditure statement is different from council tax income calculated for the year in accordance with statutory requirements	30	8
Balance at 31 March	30	38

Accumulated Absences Account

The Accumulated Absences Account absorbs the differences that would otherwise arise on the General Fund Balance from accruing for compensated absences earned but not taken in the year, e.g. annual leave entitlement and flexible working hours credits carried forward at 31 March. Statutory arrangements require that the impact on the General Fund Balance is neutralised by transfers to or from the Account.

	2009/10	2010/11
	£000	£000
Balance at 1 April	(168)	(193)
Settlement or cancellation of accrual made at the end of the preceding year	168	193
Amounts accrued at the end of the current year	(193)	(214)
Amount by which officer remuneration charged to the Comprehensive Income and Expenditure Statement on an accrual basis is different from remuneration chargeable in the year in accordance with statutory requirements	(25)	(21)
Balance at 31 March	(193)	(214)

23 CASH FLOW STATEMENT – OPERATING ACTIVITIES (INTEREST)

The cash flows for operating activities include the following interest items:

	2009/10	2010/11
	£000	£000
Interest received	(108)	(98)
Interest paid	2,678	2,656

24 CASH FLOW STATEMENT – INVESTING ACTIVITIES

	2009/10	2010/11
	£000	£000
Purchase of Property, Plant and Equipment, investment property and intangible assets	(10,382)	(8,529)
Receipts from sale of Property, Plant and Equipment, investment property and intangible assets	835	689
Acquisition of short and long term borrowing	0	(500)
Other receipts from investing activities	9,149	2,766
Net cash flows from investing activities	(398)	(5,574)

25 CASH FLOW STATEMENT – FINANCING ACTIVITIES

	2009/10	2010/11
	£000	£000
Cash payments for the reduction of the outstanding liabilities relating to finance leases	(495)	(498)
Repayment of short term borrowing	(8,504)	0
Payments and receipts relating to NNDR	1,958	(2,849)
Net cash flows from financing activities	(7,041)	(3,347)

26 AMOUNTS REPORTED FOR RESOURCE ALLOCATION DECISIONS

The analysis of income and expenditure by service on the face of the Comprehensive Income and Expenditure Statement is that specified by the *Best Value Accounting Code of Practice*. However, decisions about resource allocation are taken by the Cabinet and Council on the basis of budget reports analysed across services. These reports are prepared on a different basis from the accounting policies used in the financial statements. In particular:

- no notional charges are made in relation to capital expenditure (whereas depreciation, revaluation and impairment losses in excess of the balance on the Revaluation Reserve and amortisations are charged to services in the Comprehensive Income and Expenditure Statement)
- the cost of retirement benefits is based on cash flows (payments of employer's pensions contributions) rather than current service cost of benefits accrued in the year
- expenditure on some support services is budgeted for centrally and not charged to services.

27 ACQUIRED AND DISCONTINUED OPERATIONS

Williamson Park Limited is wholly controlled by the Council by virtue of its right to nominate five of its councillors as Directors of the company. The principal activity of the company was the preservation of

the park and the provision of amenities for the public benefit. The Company ceased trading on 30 November 2010 with park operations returning directly to the Council from 01 December 2010.

Arrangements are in hand for the Company to be wound up and this is expected to occur during 2011/12, at which point the Council will be responsible for any outstanding net liabilities arising, for which the Council has already made provision for (see also Notes 20 and 34).

28 TRADING OPERATIONS

Trading services cover undertakings with the public or with other third parties, and include such activities as highways maintenance, trade waste collection, markets and the letting of commercial properties and industrial units. Details of these trading areas and their respective (surpluses) or deficits for the last three years is shown in the following tab

	2008/09	2009/10	2010/11
Highways	£000	£000	£000
Turnover	(1,207)	(1,253)	(1,223)
Expenditure	1,025	1,201	956
Surplus	(182)	(52)	(267)
Trade Waste			
Turnover	(848)	(910)	(1,039)
Expenditure	715	764	857
Surplus	(133)	(146)	(182)
Markets			
Turnover	(794)	(814)	(1,095)
Expenditure	1,455	1,189	1,388
Deficit	661	375	293
Commercial Properties / Industrial Units			
Turnover	(1,132)	(1,026)	(887)
Expenditure	2,994	593	539
Surplus	1,862	(433)	(348)
Consolidated			
Turnover	(3,981)	(4,003)	(4,244)
Expenditure	6,189	3,747	3,740
Surplus	2,208	(256)	(504)

Trading operations are incorporated into the Comprehensive Income and Expenditure Statement and form an integral part of the Authority's services to the public. No costs are recharged to the Net Operating Expenditure of Continuing Operations but are included within Financing and Investment Income and Expenditure.

	2009/10	2010/11
	£000	£000
Net surplus on trading operations	(256)	(504)
Trading expenditure and income included within Surplus or Deficit on the Provision of Services	0	0
Net surplus posted to other operating expenditure	(256)	(504)

29 AGENCY SERVICES

The Authority provides highways grounds maintenance for Lancashire County Council for which it is reimbursed subject to defined limits. The net deficit represents the amount by which the council contributes to the agency.

	2009/10	2010/11
	£000	£000
Expenditure on agency arrangement	159	133
Income on agency arrangement	(122)	(104)
Net deficit arising on agency arrangements (local top-up)	37	29

30 MEMBERS ALLOWANCES

The Authority paid the following amounts to members of the council during the year.

	2009/10	2010/11
	£000	£000
Basic Allowances	197	197
Special Responsibility Allowances	96	83
Expenses	6	4
Total	299	284

31 OFFICERS REMUNERATION

The remuneration paid to the Authority's senior employees is as follows:

	Salary, Fees and allowances	Expenses & Benefits in Kind	Redundancy Payments	Total Remuneration (excluding pension contributions)	Employer Pension contribution	Total Remuneration (including pension contributions)
2010/11	£000	£000	£000	£000	£000	£000

£75,000 - £79,999	1	-
£80,000 - £84,999	1	-

32 EXTERNAL AUDIT COSTS

The Authority has incurred the following costs in relation to the audit of the Statement of Accounts, certification of grant claims and statutory inspections and to non-audit services provided by the Authority's external auditors.

	2009/10 £000	2010/11 £000
Fees payable to external auditors with regard to external audit services carried out by the appointed auditor for the year	130	169
Rebate of fee in respect of IFRS work	0	(10)
Fees payable in respect of other statutory inspections	8	0
Fees payable for the certification of grant claims and returns for the year	45	43
Total	183	202

33 GRANT INCOME

The Authority credited the following grants, contributions and donations to the Comprehensive Income and Expenditure Statement in 2010/11.

The Authority has received a number of grants, contributions and donations that have yet to be recognised as income as they have conditions attached to them that will require the monies or property to be returned to the giver. The balances at the year-end are as follows:

	2009/10	2010/11
Credited to Taxation and Non Specific Grant Income	£000	£000
Revenue Support Grant	2,999	2,077
Area Based Grant	329	98
Planning Delivery Grant	818	0
Lancashire County Council - Performance Reward Grant	0	324
Big Lottery Happy Mount Park Natural Adventure	55	0
DfT Cycling England	562	290
Lancashire County Council Cycling England	129	77
Environment Agency Artle Beck Flood Defences	16	174
Environment Agency Mill Head Warton Flood Defences	345	22
Regional Housing Pot Bold Street Renovation Scheme	127	633
NWDA Lancaster Science Park	2,168	0
NWEIP Neighbourhood Quick Response Vehicles	72	0
Other Grants under £50K	185	278
Total	7,805	3,973
	2009/10	2010/11
Credited to services	£000	£000
DCLG YMCA Places of Change Grant	713	720
DCLG Disabled Facilities Grant	653	625
Regional Housing Pot Disabled Facilities Grant	436	100
Grant: Sefton BC Strategic Monitoring	0	79
Regional Housing Grant Bold Street Renovation Scheme	0	182
Regional Housing Grant Marlborough Road Redevelopment	0	110
Regional Housing Grant Marlborough Road Demolition	18	0
Regional Housing Grant West End Flats	126	0
Capital Grant Exemplar Scheme	0	76
Strand 2 - Exercise Referral Project: Other Grants	101	71
Parliamentary Elections: Government Grants	0	200

Bold St Renovation, Regional Housing Grant	360	100
EP Exemplar Project Funding	76	0
EP Exemplar Project Funding, Bus station	99	99
Other Grants Under £50K	212	158
Total	1,735	1,105

34 RELATED PARTIES

The Authority is required to disclose material transactions with related parties – bodies or individuals that have the potential to control or influence the council or to be controlled or influenced by the council. Disclosure of these transactions allows readers to assess the extent to which the council might have been constrained in its ability to operate independently or might have secured the ability to limit another party's ability to bargain freely with the Authority.

Central Government

Central Government has effective control over the general operations of the Authority – it is responsible for providing the statutory framework within which the Authority operates, provides the majority of its funding in the form of grants and prescribes the terms of many of the transactions that the Authority has with other parties (e.g. council tax bills, housing benefits). Grants received from government departments are set out in the subjective analysis Note 25 on reporting for resources allocation decisions. Grant receipts outstanding at 31 March 2011 are shown in Note 26.

Members

Members of the council have direct control over the Council's financial and operating policies. The total of members' allowances paid in 2010/11 is shown in Note 30. There are no other material transactions to disclose in respect of elected members.

Officers

Senior officer remuneration is disclosed in Note 31, and there are no other material transactions to disclose in respect of officers.

Entities Controlled or Significantly Influenced by the Authority

The Council controls Williamson Park Ltd by virtue of its right to nominate five of its Councillors as Directors. The principal activity of the company being the preservation of the park and the provision of amenities for the public benefit. The Council provided revenue grant support of £76,100 to the company for the period 01 April to 30 November 2010 at which point the company ceased trading and operations returned directly to the Council from 01 December 2010 (*see also Notes 20 and 27*).

Payment of revenue grant support totalling £154,200 was made to the Dukes Playhouse Ltd in 2010/11 for its core activities, i.e. to promote and advance artistic and aesthetic education and the public appreciation of the arts and manage a theatre, which is at the service of the whole community. This included the provision of grant in lieu of rent free Council accommodation to the value of £12,500. The Youth Arts Centre occupies a former church, which is also owned by the Council. The company maintains the building and pays an annual rent of £8,000 to the Council in respect of this. Although the Council has nominated four of its City Councillors as trustees of the company there is no ultimate controlling party.

The Council nominates one of its Councillors onto the Board of Heysham Mossgate (Community Facilities) Company Ltd. There is no ultimate controlling party however, and the Council made no financial support to the company during 2010/11. The principal activity of the company is the development of community facilities in the Mossgate area of Heysham on a non-profit making basis.

Payment of revenue grant support totalling £28,300 was made to the Storey Ltd in 2010/11. The principal activity of the company is the operation of the Storey Creative Industry Centre on a non-profit making basis. Although the Council nominates one of its Councillors as a member of the company there is no ultimate controlling party.

35 CAPITAL EXPENDITURE AND CAPITAL FINANCING

The total amount of capital expenditure incurred in the year is shown in the table below, together with the resources that have been used to finance it. Where capital expenditure is to be financed in future years by charges to revenue as assets are used by the Authority, the expenditure results in an increase in the Capital Financing Requirement (CFR), a measure of the capital expenditure incurred historically by the Authority that has yet to be financed. The CFR is analysed in the second part of this note.

	2009/10	2010/11
	£000	£000
Opening Capital Financing Requirement	50,398	50,810
<i>Capital investment</i>		
Property, Plant and Equipment	9,066	8,397

Increase in underlying need to borrowing (supported by government financial assistance)	0	0
Increase in underlying need to borrow (unsupported by government financial assistance)	412	9
	<hr/>	<hr/>
Increase/(decrease) in Capital Financing Requirement	412	9

36 LEASES

Finance Leases

Under IFRS the vast majority of the Council's operating leases have been reclassified as finance leases. This means that assets are recognised on the balance sheet with a matching liability to represent the substance of the lease agreement which is an asset funded by borrowings. The lease charges are then split between a finance charge and repayment of the debt. A capital charge for the asset is posted to the cost of the services.

	31/03/10	31/03/11
	£000	£000
Operational Land and buildings	7,087	10,308
Vehicles, Plant, Furniture & Equipment	2,115	1,605
Total	9,202	11,913
	<hr/>	<hr/>
Finance lease liabilities (net present value of minimum lease payments):	31/03/10	31/03/11
	£000	£000
■ Current	498	505
■ Non-current	3,937	3,432
Finance costs payable in future years	25,095	24,666
Minimum lease payments	29,530	28,603

The minimum lease payments will be payable over the following periods:

	Minimum lease payments		Finance cost	
	31/03/10	31/03/11	31/03/10	31/03/11
	£000	£000	£000	£000
Not later than 1 year	498	505	429	401
Later than 1 year and not later than 5 years	1,306	909	1,468	1,397
Later than 5 years	2,630	2,523	23,199	22,868
Minimum lease payments	4,434	3,937	25,096	24,666

The minimum lease payments include rents that are contingent following rent reviews. In 2010/11 £113K contingent rents were payable by the Authority (2009/10 £113K). These are considered part of the minimum lease payments as although not part of the discounting calculation at the inception of the lease, it is assumed that there will be no downwards rent review.

Operating Leases

As noted above, all of the items from the leasing register that were previously disclosed as operating leases have been re-classified as finance leases. Expenditure on other ad hoc operating leases was £8K.

37 IMPAIRMENT LOSSES

During 2010/11 the Authority has recognised impairment losses of £42.191M in relation to fixed asset valuations. This is largely due to declining housing market reducing the value of both the housing stock (£36.675M) and some investment properties valued for residential use (£3.837M) as well as the demolition of the Dome building in Morecambe (£1.630M).

38 TERMINATION BENEFITS

The Authority approved the early retirement / voluntary redundancy (ER/VR) of a number of employees in 2010/11, incurring liabilities of £814K (£602K in 2009/10) in respect of redundancy costs. Of this total, £315K was paid to 2 Directors and 2 Service Heads, in the form of compensation for loss of office (redundancy) as disclosed in Note 31. The remaining £499K was paid to 23 officers from 8 different services whose applications for ER/VR were approved as part of the council's overall review of services.

39 DEFINED BENEFIT PENSION SCHEMES

Participating in Pension Schemes

As part of the terms and conditions of employment of its officers, the Authority makes contributions towards the cost of post employment benefits. Although these benefits will not actually be payable until employees retire, the Authority has a commitment to make the payments that needs to be disclosed at the time that employees earn their future entitlement.

The Authority participates in one employment scheme. The Local Government Pension Scheme for civilian employees, administered by Lancashire County Council – this is a funded defined benefit final salary scheme, meaning that the Council and employees pay contributions into a fund, those contributions being calculated at a level intended to balance the pensions liabilities with investment assets.

Transactions Relating to Post-employment Benefits

The council recognises the cost of retirement benefits in the reported cost of services when they are earned by employees, rather than when the benefits are eventually paid as pensions. However, the charge required to be made against council tax is based on the cash payable in the year, so the real cost of post employment/retirement benefits is reversed out of the General Fund via the Movement in Reserves Statement. The following transactions have been made in the Comprehensive Income and Expenditure Statement and the General Fund Balance via the Movement in Reserves Statement during the year:

	Local Government Pension Scheme	
	2009/10	2010/11
	£000	£000
Comprehensive Income and Expenditure Statement		
<i>Cost of services:</i>		
Current service cost	2,018	3,020
Employer contributions	(3,340)	(3,885)
Past Service cost	0	(8,727)
Settlements and curtailments	113	342
<i>Financing & Investment Income & Expenditure</i>		
Interest costs	8,248	8,920
Expected return on scheme assets	(4,833)	(6,422)
Total Post Employment Benefit Charged to Provision of Services	2,206	(6,752)
<i>Other Post Employment Benefit Charged to the Comprehensive Income and Expenditure Statement</i>		
Actuarial gains and losses	16,627	(16,946)
Total Post Employment Benefit Charged to the Comprehensive Income and Expenditure Statement	18,833	(23,698)

Movement in Reserves Statement

Reversal of net charges made to the Surplus or Deficit for net Provision of Services for post employment benefits in accordance with the Code	(2,206)	6,752
Reversal of actuarial gains and losses recognised in other Comprehensive Income and Expenditure	(16,627)	16,946
Net charge in relation to pension adjustments	0	0
Actual amount charged against Funds for pensions in the year - employers contributions	3,671	3,545

Assets and Liabilities in Relation to Post-employment Benefits

Reconciliation of present value of the scheme liabilities:

	Funded Liabilities		Unfunded Liabilities	
	2009/10	2010/11	2009/10	2010/11
	£000	£000	£000	£000
Opening balance	(112,966)	(154,929)	(4,379)	(5,281)
Current service cost	(2,018)	(3,020)	0	0
Interest costs	(7,947)	(8,632)	(301)	(288)
Contributions by scheme participants	(1,056)	(1,003)	0	0
Actuarial gains and losses	(35,987)	12,887	(869)	1,446
Benefits paid	5,158	5,623	268	262
Past service costs	0	8,525	0	202
Curtailments	(113)	(285)	0	0
Closing balance	(154,929)	(140,834)	(5,281)	(3,659)

Reconciliation of fair value of the scheme assets:

	Local Government Pension Scheme	
	2009/10	2010/11
	£000	£000
Opening balance	76,435	100,467
Expected rate of return	4,833	6,422
Actuarial gains and losses	20,229	2,613
Employer contributions	3,072	3,885
Contributions by scheme participants	1,056	1,003
Benefits paid	(5,158)	(5,885)
Settlements	0	0
Curtailments	0	0
Closing balance	100,467	108,505

The expected return on scheme assets is determined by considering the expected returns available on the assets underlying the current investment policy. Expected yield on fixed interest investments are based on gross redemption yields as at Balance Sheet date.

Expected returns on equity investments reflect long-term real rates of return experienced in the respective markets.

The actual return on scheme assets in the year was £6.422M (2009/10 £4.833M).

	2006/07	2007/08	2008/09	2009/10	2010/11
	£000	£000	£000	£000	£000
Present value of liabilities	(131,840)	(138,363)	(117,345)	(160,210)	(144,493)
Present value of assets	104,037	96,846	76,435	100,467	108,505
Surplus/deficit in the scheme	(27,803)	(41,517)	(40,910)	(59,743)	(35,988)

The liabilities show the underlying commitments that the Authority has in the long run to pay post employment (retirement) benefits. The total liability of £144.493M has a substantial impact on the net worth of the Authority as recorded in the Balance Sheet, resulting in a negative overall balance of £35.958M. However, statutory arrangements for funding the deficit mean that the financial position of the Authority remains healthy:

- the deficit on the local government scheme will be made good by increased contributions over the remaining working life of employees (ie before payments fall due), as assessed by the scheme actuary.
- finance is only required to be raised to cover discretionary benefits when the pensions are actually paid.

The total contributions expected to be made to the Local Government Pension Scheme by the council in the year to 31 March 2012 is £3.248M

Basis for Estimating Assets and Liabilities

Liabilities have been assessed on an actuarial basis using the projected unit credit method, an estimate of the pensions that will be payable in future years dependent on assumptions about mortality rates, salary levels, etc. Both the Local Government Pension Scheme and Discretionary Benefits liabilities have been assessed by Mercer Human Resource Consulting Ltd, and independent firm of actuaries, estimates for the County Council Fund being based on the latest formal actuarial valuation of the scheme as at 31 March 2010.

	2009/10	2010/11
	%	%
Return on assets (%):		
Equity investments	7.5	7.5
Bonds	4.9	4.7
Other	4.8	4.8
Longevity at 65 for current pensioners (yrs):		
Men	21.2	21.6
Women	24.0	24.2
Longevity at 65 for future pensioners:		
Men	22.2	23.0
Women	25.0	25.8
Rate of inflation (%)	3.3	3.4
Rate of increase in salaries (%)	5.1	4.9
Rate of increase in pensions (%)	3.3	2.9
Rate of discounting for scheme liabilities (%)	5.6	5.5
Take up of option to convert annual pension into retirement lump sum (yrs)	50.0	50.0

The Discretionary Benefits arrangements have no assets to cover its liabilities. The Local Government Pension Scheme's assets consist of the following categories, by proportion of the total assets held:

	Local Government Pension Scheme	
	2009/10	2010/11
	%	%
Equity investments	66.0	64.0
Debt instruments	19.0	21.0
Other assets	15.0	15.0
	100.0	100.0

History of Experience Gains and Losses

The actuarial gains identified as movements on the Pensions Reserve in 2010/11 can be analysed into the following categories, measured as a percentage of assets or liabilities at 31 March 2011.

	2006/07	2007/08	2008/09	2009/10	2010/11
	%	%	%	%	%
Differences between the expected and actual return on assets	0.70	13.40	34.30	20.10	2.40
Experience gains and losses on liabilities	0.00	5.70	0.00	0.00	9.80

40 CONTINGENT LIABILITIES

The following material contingent liabilities existed as at 31 March 2011:

Lunside East Regeneration Scheme – In assembling land for this project, the Council used compulsory purchase powers and one significant compensation claim is still outstanding. The timing and likely settlement values are uncertain, although it is possible that settlement may be achieved towards the end of 2011/12. The council has some financial provision available in connection with this claim, but at this stage any potential liability arising cannot be measured with any certainty.

The Council has also accounted for European Regional Development Funding of £2.5M in connection with this project to date, for which clawback liabilities may arise if the scheme does not achieve its planned outcomes. Given the ongoing commitment of partners to progress this scheme, however, and the specific market conditions giving rise to the current position, it is still probable that a positive outcome will be forthcoming, thereby avoiding any material liabilities falling on the Council as at 31 March 2011.

41 CONTINGENT ASSETS

The following material contingent asset existed as at 31 March 2011:

Luneside East Regeneration Scheme – The council has submitted an application for costs in connection with a Lands Tribunal hearing regarding the above claim; but any economic benefits are contingent on the outcome of the Tribunal and the application itself.

42 NATURE AND EXTENT OF RISKS ARISING FROM FINANCIAL INSTRUMENTS

The Authority's activities expose it to a variety of financial risks:

- credit risk – the possibility that other parties might fail to pay amounts due to the Authority
- liquidity risk – the possibility that the Authority might not have funds available to meet its commitments to make payments
- market risk – the possibility that financial loss might arise for the Authority as a result of changes in such measures as interest rates and stock market movements.

The Authority's overall risk management focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the resources available to fund services. Risk management is carried out by the treasury management team, under policies approved by Council in the annual treasury management strategy. The Council provides written principles for overall risk management, as well as written policies covering specific areas, such as interest rate risk, credit risk and the investment of surplus cash.

Credit Risk

Credit risk arises from deposits with banks and financial institutions, as well as credit exposures to the authority's customers.

This risk is minimised through the Annual Investment Strategy, which requires that deposits are not made with financial institutions unless they meet identified minimum credit criteria, as laid down by Standard and Poor, Moody's and Fitch. The Annual Investment Strategy also imposes a maximum sum to be invested with a financial institution located within each category.

As per the 2010/11 approved Treasury Management Policy, the credit criteria in respect of financial assets held by the authority are as detailed below:

	Minimum across all three ratings			Money Limit ⁷	Time Limit ⁸
	Fitch	Moody's	Standard & Poors		
Upper Limit ¹	F1+/AA-	P-1/AA3	A-1+/AA-	£4M	Instant access only
				£2M	3 months
Middle Limit ²	F1/A	P-1/A2	A-1/A	£2M	Instant access only
Other Institutions ³	N/A	N/A	N/A	£4M	1 Year
Money Market Funds ⁴	AAA	AAA	AAA	£4M	Instant Access Only
DMADF deposit ⁵	N/A	N/A	N/A	£20M	1 Year
Sovereign rating to apply to all non UK counterparties ⁶	AAA	AAA	AAA	N/A	N/A
Notes:					
1 & 2: The Upper and Middle Limits apply to appropriately rated banks and building societies.					
3: The Other Institutions limit applies to other local authorities and supranational institutions (i.e. ECB).					
4: Sterling, constant net asset value funds only.					
5: The DMADF facility is direct with the UK government, it is extremely low risk and hence the higher limit.					
6: UK investments are defined as those listed under UK banks or building societies in the Butler's counterparty listing.					
7: Money limits apply to principal invested and do not include accrued interest.					
8: Time Limits start on the trade date for the investment.					

The Authority's maximum exposure to credit risk in relation to its investments of £7.8M (not including Icelandic deposits) cannot be assessed generally as the risk of any institution failing to make interest payments or repay the principal sum will be specific to each individual institution. Recent experience has shown that it is rare, but not impossible, for such entities to be unable to meet their commitments. A risk of non-recovery applies to all of the Authority's deposits, but for the £7.8M, there was no evidence at 31 March 2011 that this was likely to materialise.

The following analysis summarises the Authority's potential maximum exposure to credit risk on other financial assets, based on past experience of default and non-collectability, adjusted to reflect current market conditions.

	Balance 31/03/11	Historical experience of default	Exposure at 31/03/11	Exposure at 31/03/11
	£000	%	£000	£000
	(a)	(b)	(a * c)	
AAA rated counterparties	4,100	0.00%	0	-
AA rated counterparties	2,400	0.03%	1	-
A rated counterparties	1,300	0.08%	1	2
Icelandic investments	3,120	Impairment provision	1,363	1,363
Trade debtors	2,277	Bad debt provision	427	371
Total	13,197		1,792	1,736

No credit limits were exceeded during the reporting period and the authority does not expect any losses from non-performance by any of its counterparties in relation to deposits.

The Authority does not generally allow credit for customers, such that £1.45M of the £2.27M balance is past its due date for payment. The past due but not impaired amount can be analysed by age as follows:

	31/03/10	31/03/11
	£000	£000
Current, < 28 Days	905	827
28-59 Days	157	256
60-91 Days	79	80
92-183 Days	210	197
184-364 Days	226	191
365+ Days	608	726
Total	2,185	2,277

Liquidity Risk

The Council manages its liquidity position through the risk management procedures above as well as through a cash flow management system, as required by the Code of Practice. This seeks to ensure that cash is available when it is needed.

The Council has ready access to borrowings from the Money Markets to cover any day to day cash flow need, and whilst the PWLB provides access to longer term funds, it also acts as a lender of last resort to Councils (although it will not provide funding to a Council whose actions are unlawful). The Council is also required to provide a balanced budget through the Local Government Finance Act 1992, which ensures sufficient monies are raised to cover annual expenditure. There is therefore no significant risk that it will be unable to raise finance to meet its commitments under financial instruments.

All deposits in year were held on either instant access or terms of less than 6 months with the Debt Management Office (DMO). Balances held in Icelandic banks are split between current and long term assets in line with CIPFA's projected repayment timetable, as per Note 14.

	31/03/10	31/03/11
	£000	£000
Less than one year	0	0
More than 30 years	39,215	39,215
Total	39,215	39,215

Market Risk

Interest Rate Risk

The Council has a small exposure to interest rate risk on its borrowings as all borrowings are taken at fixed interest rates and mostly over long periods. No new long or short term loans were taken out during 2010/11.

The Council's investments held within instant access Call accounts are affected by movements in interest rates. The prevailing bank rate at the balance sheet date was 0.5%, meaning that returns have remained at very low levels during the year. The Council also placed a number of fixed term investments during the year within the DMO Deposit Account and had the prevailing rates been higher, it would have seen a corresponding increase in income. Sensitivity to an increase of 1% on interest rates during 2010/11 would have had the following effect:

	Actual	+1%
	£000	£000
New or variable investments:		
Fixed term	9	39
Call accounts	90	149
Total	99	188

This highlights that the Council's borrowings were insensitive to interest rate changes during 2010/11 but that investments are very sensitive and given that current rates on the Council's investments are below 1%, an increase of 1% would more than double the yield. The investments placed and the instant access accounts were sensitive to interest rates which have been consistently low since the banking crisis (interest in the year £99K vs. £108K in the prior year, not including the notional interest on Icelandic investments).

Housing Revenue Account

THE HOUSING REVENUE ACCOUNT (HRA) INCOME AND EXPENDITURE STATEMENT

The HRA Income and Expenditure Statement shows the economic cost in the year of providing housing services in accordance with generally accepted accounting practices, rather than the amount to be funded from rents and government grants. Authorities charge rents to cover expenditure in accordance with regulations; this may be different from the accounting cost. The increase or decrease in the year, on the basis of which rents are raised, is shown in the Movement on the HRA Statement.

MOVEMENT ON THE HRA STATEMENT

The overall objective for the Movement on the HRA Statement and the general principles for its construction are the same as those generally for the Movement in Reserves Statement, into which it is consolidated. The statement takes the outturn on the HRA Income and Expenditure Statement and reconciles it to the surplus or deficit for the year on the HRA Balance, calculated in accordance with the requirements of the Local Government and Housing Act 1989.

2009/10 £000		2010/11 £000
(494)	Balance on the HRA at the end of the previous year	(523)
10,300	(Surplus) or deficit for the year on the HRA Income and Expenditure Statement	31,313
1,083	Adjustments between accounting basis and funding basis under statute	3,037
11,383	Net (increase) or decrease before transfers to or from reserves	34,350
(11,412)	Transfers to or (from) reserves	(34,279)
(29)	(Increase) or decrease in year on the HRA	71
(523)	Balance on the HRA at the end of the current year	(452)

NOTES TO THE HOUSING REVENUE ACCOUNT

1 NUMBER AND VALUES OF DWELLINGS

As at 31 March 2011 the Council held the following number of dwellings:

	2009/10	2010/11
Bedsits	116	96
1 Bedroom	649	657
	Houses & Bungalows	511
	Flats & Maisonettes	531
2 Bedroom	506	498
	Houses & Bungalows	681
	Flats & Maisonettes	682
3 Bedroom	1,258	1,249
	Houses & Bungalows	7
	Flats & Maisonettes	8
4 or more bedroomed dwellings	82	86
TOTAL DWELLINGS	3,810	3,807

The Balance Sheet value of assets held in the Housing Revenue Account was as follows:

	Value as at 01/04/2010 £000	Value as at 31/03/2011 £000
Operational Assets:		
Council Dwellings	142,165	107,918
Other land and buildings	129	82
	142,294	108,000
Non-operational Assets	1,232	1,422
TOTAL	143,526	109,422

Dwellings are valued on the basis of Existing Use Value (Social Housing). This basis was first introduced on 01 April 2001, following the introduction of Resource Accounting in the HRA, with values then being rebased annually, with periodic full revaluation exercises every 5 years, which has now been undertaken to update all values to 01 April 2010. This has resulted in a decrease in asset values of £32,661,110 in the year, which is the major part of the net movement in asset

values shown above. This is principally attributable to a difference between the accumulated values from the annual rebasing exercises, and those contained in the recent full revaluation. The Major Repairs Allowance of £2,307,041, for 2010/11 has been used as a proxy for depreciation on dwellings. Non-dwelling assets were also revalued at 01 April 2010.

The vacant possession value of dwellings held on 01 April 2010 was £315,210,000. The difference between this and the EUV-SH valuation of £110,323,500 (i.e. the update figure after the full valuation exercise effective as of 01 April 2010 but before depreciation, disposals etc) represents the economic cost to the Government of providing Council Housing at less than open market rents.

2 MOVEMENT ON THE MAJOR REPAIRS RESERVE

Movements on the Major Repairs Reserve for the year were as follows:

	2009/10	2010/11
	£000	£000
Opening Balance 01 April	6,724	6,868
Transfer from General Reserves	144	173
Transfer to MRR – Depreciation	2,354	2,325
Transfer to HRA - Depreciation Adjustment	(50)	(18)
Capital Expenditure		
- Land	0	0
- Houses	(2,304)	(2,767)
- Other property.	0	0
Closing Balance 31 March	6,868	6,581

3 CAPITAL EXPENDITURE

Capital expenditure of £4,185,000 was incurred during the year, of which £4,161,000 was on works and improvements to dwellings and £24,000 on intangible assets. This was financed as follows:

	2009/10	2010/11
	£000	£000
Borrowing	0	0
Usable Capital Receipts	42	53
Revenue Contributions	1,077	1,283
Earmarked Reserves	77	80
Majors Repairs Reserve	2,304	2,767
Grants and Contributions	8	2
Total Capital Financing	3,508	4,185

Capital receipts totalling £211,000 were received during the year from the following sources:

	2009/10	2010/11
	£000	£000
Sale of dwellings	113	208
Sale of land	15	0
Repayment of Principal on Mortgages	3	3
Repayment of Right to Buy discounts	0	0
Total Capital Receipts	131	211

The above amounts are shown gross, before deducting administration fees. Previously under the Local Government and Housing Act 1989, 75% of council house sales were to be set aside for debt redemption, however the Local Government Act 2003 (section 11(2)(b)) now requires all or part of the receipt to be paid over to the Secretary of State. The aim is to preserve and strengthen the principle of redistributing the spending power generated by the sale of such assets.

4 DEPRECIATION

Total depreciation charges for the year were as follows:

	2009/10	2010/11
	£000	£000
Council Dwellings	2,304	2,307
Other land and buildings	3	2
Non-operational Assets	7	16
Deferred Charges on Intangible Assets	8	12
Government Grants deferred write down	0	0
TOTAL	2,322	2,337

5 IMPAIRMENT CHARGES

An impairment charge of £36,675,000 in respect of Council Dwellings was made to the HRA for the financial year 2010/11. This was as a result of downward market valuations to the Council Housing Dwellings stock. £34,181,000 of the impairment charge is shown in the Income and Expenditure account, this is because there were insufficient balances against the individual assets on the Revaluation Reserve.

6 INTANGIBLE ASSETS

A charge of £12,000 was made during the year, this was made up as follows: a third year charge of £3,000 in respect of software purchased for the Task Total Repairs system, which is an upgrade of the contractor system, a second year charge of £4,000 in respect of the Testing and Implementation of Task Total Solution by Northgate and a further £5,000 for the 40% purchase of Central Control Equipment from Abritas. The assets are to be amortised to revenue over a 5 year period which is consistent with the consumption of the economic benefit controlled by the Council.

7 HOUSING REVENUE ACCOUNT SUBSIDY

The total Negative Housing Subsidy payable for the year 2010/11 was £1,731,000 (£932,000 for 2009/10), the analysis of which is shown in the table below, and the actual negative subsidy paid this year amounted to £1,749,000 (£947,000 for 2009/10). The additional payment of £18,000 relates to the 2009/10 final determination and is in respect of a lower Consolidated Rate of Interest (CRI) being applied to the final determination than originally estimated.

	2009/10	2010/11
	£000	£000
Management Allowance	2,005	2,049
Maintenance Allowance	3,922	3,972
Major Repairs Allowance	2,304	2,307
Admissible Allowances	0	0
Anti-Social Behaviour Allowance	0	0
Charges for Capital	1,704	1,563
Rent Rebates	0	0
Notional Rent	(10,865)	(11,622)
Interest on Receipts	(2)	0
Government Grants	0	0
Rental Constraint Allowance	0	0
Total Housing Subsidy	(932)	(1,731)

8 CONTRIBUTIONS TO/FROM PENSIONS RESERVE

In accordance with the requirements of International Accounting Standard 19, the current service cost has been included within the Net Cost of Services and the net of the interest cost and the

expected return on assets included within Net Operating Expenditure. Actuarial gains and losses arising from any new valuation and from updating the latest actuarial valuation to reflect conditions at the balance sheet date are recognised in the Statement of Movements in the HRA balance.

9 RENT ARREARS

Total arrears of rent at 31 March 2011 amounted to £402,000 (£413,000 for 2009/10). An amount of £653,000 (£420,000 for 2009/10) was held as provision for bad debts; this covers rent arrears and all other debts outstanding to the Housing Revenue Account. The significant increase in provision this year is directly attributable to the higher number of increase debt from rechargeable repairs, court costs and tenants rent arrears. This represents allowances of 95% for arrears from former tenants and 25% for arrears from current tenants and leaseholders, in addition to 95% of other outstanding debts.

10 TRANSFERS TO/FROM GENERAL FUND AS DIRECTED BY SECRETARY OF STATE

There have been no transfers to or from the General Fund as directed by the Secretary of State.

11 EXCEPTIONAL ITEMS, EXTRAORDINARY ITEMS AND PRIOR YEAR ADJUSTMENTS

There is one exceptional item which relates to impairment charges which are detailed in Note 5 above. There are no other extraordinary items or prior year adjustments.

12 NOTES TO THE STATEMENT OF MOVEMENT ON THE HRA BALANCE

	2009/10 £000	2010/11 £000
Adjustments between accounting basis and funding basis under statute		
Difference between interest payable and similar charges including amortisation of premiums & discounts determined in accordance with the Code & those determined in accordance with statute.	159	159
Difference between any other item of income & expenditure determined in accordance with the Code and determined in accordance with statutory HRA requirements.	0	0
Gain or loss on sale of HRA non-current assets.	65	109
HRA share of contributions to or from the Pension Reserve.	(295)	946
Capital Expenditure funded by the Housing Revenue Account	1,154	1,823
Sums directed by the Secretary of State to be debited or credited to the HRA that are not income or expenditure in accordance with the Code.	0	0
	1,083	3,037
Transfers to or (from) reserves		
Transfer to/(from) Major Repairs Reserve	144	(287)
Transfer to/(from) Housing Repairs Account	0	0
Transfer to/(from) Earmarked Reserves	409	23
Transfer to/(from) the Capital Adjustment Account	(11,965)	(34,015)

Collection Fund

The Collection Fund is an "agent's statement" that reflects the statutory obligation for billing authorities to maintain a separate Collection Fund. The statement shows the transactions of the billing authority in relation to the collection from taxpayers and distribution to local authorities and the Government of council tax and non-domestic rates.

2009/10 £000	INCOME	NOTES	2010/11 £000

0	(Surplus)/Deficit as at 31 March (Carried forward)		0

NOTES TO THE COLLECTION FUND

The following notes are intended to explain figures contained in the Collection Fund Statement.

1 COUNCIL TAX

Council Tax is charged based on the value of residential properties; these are classified into eight valuation bands estimating 01 April 1991 values for charging purposes. Individual charges are calculated by estimating the amount of income required to be taken from the Collection Fund by Lancashire County Council, Lancaster City Council and the Lancashire Police Authority for the forthcoming year and dividing this by the Council Tax base.

The Council Tax base represents the number of chargeable dwellings in each banding (i.e. the number of properties, adjusted for discounts etc.) multiplied by a set proportion to give the number of Band D equivalents. The estimated collection rate is then applied to the Band D equivalent total, to give the Council's Tax Base for that year. For 2010/11 the numbers are as follows:-

	Chargeable Dwellings	Band D Equivalents
Band A	20,230	11,299
Band B	14,790	10,250
Band C	11,055	8,971
Band D	5,879	5,315
Band E	3,612	4,154
Band F	1,811	2,491
Band G	803	1,276
Band H	43	81
Total	58,223	43,838
<i>Collection Rate</i>		99%
Council Tax Base		43,400

2 BUSINESS RATES

The City Council collects National Non-Domestic Rates (NNDR) for its area. NNDR is based on rateable values set by the Inland Revenue, multiplied by a Uniform Business Rate set by Central Government. For most businesses, this was set at 41.4p per £ for 2010/11 (48.5p for 2009/10). For local businesses with a rateable value of less than £18,000, a discount of 0.7p was allowed giving a rate of 40.7p per £. The rateable value at 31 March 2011 was £162,447,441 (£87,778,082 for 2009/10). The total amount due, after adjusting for certain reliefs and other deductions, is paid into a central pool (the NNDR pool) managed by Central Government. The Government redistributes the sums paid into the pool back to local authorities in proportion to population. Lancaster's share of the pool for 2010/11, paid directly to the Comprehensive Income and Expenditure Statement, amounted to £14,301,000.

3 MAJOR PRECEPTORS

The four major preceptors on the fund are set out in the following table:

	£000
Lancashire County Council	48,100
Lancashire Police Authority	6,348
Lancashire Fire Authority	2,762
Lancaster City Council	8,872
	66,082

Bequests, Endowments and Trust Funds

The Council is responsible for the administration of a number of trust funds on behalf of their specified trustees. These funds do not represent assets of the Council and are therefore not included in the Council's Balance Sheet.

At 31 March 2011 the Council was responsible for 19 of these Trust Funds, the balances of which are shown below.

Revenue Accounts	Balance b/f 01/04/10 £	Income £	Transfers Out £	Expenditure £	Balance c/f 31/03/11 £
Bequests and Endowments					
(a) Council sole trustee					
Ashton Memorial	0				0
Williamson Park	0				0

TOTAL	94,126	87,135

It is a requirement of the Charity Commission for all Bequests, Endowments and Trust funds an Income and Expenditure account for the Trusts they are responsible for with an income under £10,000. This must be accompanied by a Balance sheet.

The Council consolidates all the Bequests, Endowments and Trusts into one account; these are shown in the following table.

Income & Expenditure Account	2009/10	2010/11
	£	£
Income		
Interest	(4,559)	(4,528)
Capital	0	0
	(4,559)	(4,528)

Represented by:		
Reserves as at 31st March	93,403	81,550
Income in year	723	5,585
	94,126	87,135

It should be noted that a total of 24 prize funds have been transferred back to the relevant schools for them to administer in future.

Below is a list and description of Bequests & Endowments where the Capital value exceeds £1,000.

Ashton Memorial

The Ashton Memorial, a historic folly, was built in 1907 and given to the City of Lancaster by Lord Ashton. The building is open to the public on 362 days a year and has free access.

Williamson Park

The annual interest is used for the cutting, pruning, trimming, hedging and the general upkeep of the grounds within Williamson Park.

William Smith Festival

The annual interest is used to provide prizes etc. at the Annual Easter Festival for schoolchildren.

Whalley Playground

The annual interest is used for the upkeep, maintenance and supervision of the Whalley Playground.

Lune Bank Gardens

The annual interest is available for the upkeep of Lune Bank Gardens.

Crook of Lune

The interest is passed to Lancashire County Council contributing towards the Hermitage Field Access for all and environmental enhancement works.

Glossary of Terms used in the Accounting Statements

Accounting Policies

Those principles, bases, conventions, rules and practices applied by an entity that specify how the effects of transactions and other events are to be reflected in its financial statements through

- recognising
- selecting measurement bases for, and
- presenting

assets, liabilities, gains, losses and changes to reserves.

Accounting policies do not include estimation techniques.

Accounting policies define the process whereby transactions and other events are reflected in financial statements. For example, an accounting policy for a particular type of expenditure may specify whether an asset or a loss is to be recognised; the basis on which it is to be measured; and where in the revenue account or Balance Sheet it is to be presented.

Acquired Operations

Operations comprise services and divisions of service as defined in BVACOP. Acquired operations are those operations of the local authority that are acquired in the period.

Actuarial Gains and Losses

For a defined benefit pension scheme, the changes in actuarial deficits or surpluses that arise because:

- (a) events have not coincided with the actuarial assumptions made for the last valuation (experience gains and losses), or
- (b) the actuarial assumptions have changed.

Capital Expenditure

Expenditure on the acquisition of a fixed asset or expenditure which adds to and not merely maintains the value of an existing fixed asset.

Class of Tangible Fixed Assets

The classes of tangible fixed assets required to be included in the accounting statements are:

Property, plant and equipment
Investment property
Assets held for sale

Further analysis of any of these items should be given if it is necessary to ensure fair presentation.

Consistency

The principle that the accounting treatment of like items within an accounting period and from one period to the next is the same.

Constructive Obligation

An obligation that derives from an authority's actions where:

- (a) by an established pattern of past practice, published policies or a sufficiently specific current statement, the authority has indicated to other parties that it will accept certain responsibilities, and
- (b) as a result, the authority has created a valid expectation on the part of those other parties that it will discharge those responsibilities.

Contingent Asset

A contingent asset is a possible asset arising from past events whose existence will be confirmed only by the occurrence of one or more uncertain future events not wholly within the local authority's control.

Contingent Liability

A contingent liability is either:

- (a) a possible obligation arising from past events whose existence will be confirmed only by the occurrence of one or more uncertain future events not wholly within the authority's control, or
- (b) a present obligation arising from past events where it is not probable that a transfer of economic benefits will be required or the amount of the obligation cannot be measured with sufficient reliability.

Corporate and Democratic Core

The corporate and democratic core comprises all activities which local authorities engage in specifically because they are elected, multi-purpose authorities. The cost of these activities are thus over and above those which would be incurred by a series of independent, single-purpose, nominated bodies managing the same services. There is therefore no logical basis for apportioning these costs to services.

Current Service Cost (Pensions)

The increase in the present value of a defined benefit scheme's liabilities expected to arise from employee service in the current period.

Curtailement

For a defined benefit scheme, an event that reduces the expected years of future service of present employees or reduces for a number of employees the accrual of defined benefits for some or all of their future service. Curtailments include:

- (a) termination of employees' services earlier than expected, for example as a result of closing a factory or discontinuing a segment of a business, and
- (b) termination, or amendment to the terms, of a defined benefit scheme so that some or all future service by current employees will no longer qualify for benefits or will qualify only for reduced benefits.

Defined benefit Scheme

A pension or other retirement benefit scheme other than a defined contribution scheme. Usually, the scheme rules define the benefits independently of the contributions payable, and the benefits are not directly related to the investments of the scheme. The scheme may be funded or unfunded (including notionally funded).

Defined Contribution Scheme

A pension or other retirement benefit scheme into which an employer pays regular contributions fixed as an amount or as a percentage of pay and will have no legal or constructive obligation to pay further contributions if the scheme does not have sufficient assets to pay all employee benefits relating to employee service in the current and prior periods.

Depreciation

The measure of the cost or revalued amount of the benefits of the fixed asset that have been consumed during the period. Consumption includes the wearing out, using up or other reduction in the useful life of a fixed asset whether arising from use, effluxion of time or obsolescence through either changes in technology or demand for the goods and services produced by the asset.

Discontinued Operations

Operations comprise services and divisions of service as defined in CIPFA's Standard Classification of Income and Expenditure. An operation should be classified as discontinued if all of the following conditions are met: Operations not satisfying all these conditions are classified as continuing.

- (a) The termination of the operation is completed either in the period or before the earlier of three months after the commencement of the subsequent period and the date on which the financial statements are approved.
- (b) The activities related to the operation have ceased permanently.
- (c) The termination of the operation has a material effect on the nature and focus of the local authority's operations and represents a material reduction in its provision of services resulting either from its withdrawal from a particular activity (whether a service or division of service or its provision in a specific geographical area) or from a material reduction in net expenditure in the local authority's continuing operations.
- (d) The assets, liabilities, income and expenditure of operations and activities are clearly distinguishable physically, operationally and for financial reporting purposes.

Discretionary benefits

Retirement benefits which the employer has no legal, contractual or constructive obligation to award and are awarded under the authority's discretionary powers, such as the Local Government (Discretionary Payments) Regulations 1996, the Local Government (Discretionary Payments and Injury Benefits) (Scotland) Regulations 1998, or the Local Government (Discretionary Payments) Regulations (Northern Ireland) 2001.

Estimation Techniques

The methods adopted by an entity to arrive at estimated monetary amounts, corresponding to the measurement bases selected, for assets, liabilities, gains, losses and changes to reserves. Estimation techniques implement the measurement aspects of accounting policies. An accounting policy will specify the basis on which an item is to be measured; where there is uncertainty over the monetary amount corresponding to that basis, the amount will be arrived at by using an estimation technique. Estimation techniques include, for example:

- (a) methods of depreciation, such as straight-line and reducing balance, applied in the context of a particular measurement basis, used to estimate the proportion of the economic benefits of a tangible fixed asset consumed in a period
- (b) different methods used to estimate the proportion of debts that will not be recovered, particularly where such methods consider a population as a whole, rather than individual balances.

Events After the balance Sheet Date

Events after the Balance Sheet date are those events, favourable and unfavourable, that occur between the Balance Sheet date and the date when the Statement of Accounts is authorised for issue.

Exceptional Items

Material items which derive from events or transactions that fall within the ordinary activities of the authority and which need to be disclosed separately by virtue of their size or incidence to give fair presentation of the accounts.

Expected Rate of Return on Pensions Assets

For a funded defined benefit scheme, the average rate of return, including both income and changes in fair value but net of scheme expenses, expected over the remaining life of the related obligation on the actual assets held by the scheme.

Extraordinary Items

Material items, possessing a high degree of abnormality, which derive from events or transactions that fall outside the ordinary activities of the authority and which are not expected to recur. They do not include exceptional items nor do they include prior period items merely because they relate to a prior period.

Fair value

The fair value of an asset is the price at which it could be exchanged in an arm's length transaction less, where applicable, any grants receivable towards the purchase or use of the asset.

Finance Lease

A finance lease is one that transfers substantially all of the risks and rewards of ownership of a fixed asset to the lessee. It should be presumed that such a transfer of risks and rewards occurs if at the inception of a lease the present value of the minimum lease payments including any initial payment, amounts to substantially all of the fair value of the leased asset.

Government Grants

Assistance by government and inter-government agencies and similar bodies, whether local, national or international, in the form of cash or transfers of assets to an authority in return for past or future compliance with certain conditions relating to the activities of the authority.

Impairment

A reduction in the value of a fixed asset below its carrying amount on the Balance Sheet.

Infrastructure Assets

Fixed assets that are inalienable, expenditure on which is recoverable only by continued use of the asset created. Examples of infrastructure assets are highways and footpaths.

Interest Cost (Pensions)

For a defined benefit scheme, the expected increase during the period in the present value of the scheme liabilities because the benefits are one period closer to settlement.

Long-term Contracts

A contract entered into for the design, manufacture or construction of a single substantial asset or the provision of a service (or a combination of assets or services which together constitute a single project), where the time taken substantially to complete the contract is such that the contract activity falls into different accounting periods. Some contracts with a shorter duration than one year should be accounted for as long-term contracts if they are sufficiently material to the activity of the period.

Net book value

The amount at which fixed assets are included in the Balance Sheet, i.e. their historical cost or current value less the cumulative amounts provided for depreciation.

Net Current Replacement Cost

The cost of replacing or recreating the particular asset in its existing condition and in its existing use, i.e. the cost of its replacement or of the nearest equivalent asset, adjusted to reflect the current condition of the existing asset.

Net Debt

The authority's borrowings less cash and liquid resources. Where cash and liquid resources exceed borrowings, reference should be to net funds rather than net debt.

Non-operational Assets

Fixed assets held by a local authority but not used or consumed in the delivery of services or for the service or strategic objectives of the authority. Examples of non-operational assets include investment properties and assets that are surplus to requirements, pending their sale. It should be noted that the incidence of rental income does not necessarily mean that the asset is an investment property; it would be deemed an investment property only if the asset is held solely for investment purposes and does not support the service or strategic objectives of the authority and the rental income is negotiated at arm's length.

Operating Leases

A lease other than a finance lease.

Past Service Cost

For a defined benefit scheme, the increase in the present value of the scheme liabilities related to employee service in prior periods arising in the current period as a result of the introduction of, or improvement to, retirement benefits.

Prior Period Adjustments

Those material adjustments applicable to prior years arising from changes in accounting policies or from the correction of fundamental errors. A fundamental error is one that is of such significance as to destroy the validity of the financial statements. They do not include normal recurring corrections or adjustments of accounting estimates made in prior years.

Projected Unit Method

An accrued benefits valuation method in which the scheme liabilities make allowance for projected earnings. An accrued benefits valuation method is a valuation method in which the scheme liabilities at the valuation date relate to: The accrued benefits are the benefits for service up to a given point in time, whether vested rights or not. Guidance on the projected unit method is given in the Guidance Note GN26 issued by the Faculty and Institute of Actuaries.

- (a) the benefits for pensioners and deferred pensioners (i.e. individuals who have ceased to be active members but are entitled to benefits payable at a later date) and their dependants, allowing where appropriate for future increases, and
- (b) The accrued benefits for members in service on the valuation date.

Related Parties

Two or more parties are related parties when at any time during the financial period:

- (i) one party has direct or indirect control of the other party, or
- (ii) the parties are subject to common control from the same source, or
- (iii) one party has influence over the financial and operational policies of the other party to an extent that the other party might be inhibited from pursuing at all times its own separate interests, or
- (iv) the parties, in entering a transaction, are subject to influence from the same source to such an extent that one of the parties to the transaction has subordinated its own separate interests.

Examples of related parties of an authority include:

- (i) central government
- (ii) local authorities and other bodies precepting or levying demands on the council tax

- (iii) its subsidiary and associated companies
- (iv) its joint ventures and joint venture partners
- (v) its members
- (vi) its chief officers, and
- (vii) its pension fund.

These lists are not intended to be comprehensive.

For individuals identified as related parties, the following are also presumed to be related parties:

- (i) members of the close family, or the same household, and
- (ii) partnerships, companies, trusts or other entities in which the individual, or a member of their close family or the same household, has a controlling interest.

Related Party Transaction

A related party transaction is the transfer of assets or liabilities or the performance of services by, to or for a related party irrespective of whether a charge is made. Examples of related party transactions include:

- (i) the purchase, sale, lease, rental or hire of assets between related parties
- (ii) the provision by a pension fund to a related party of assets or loans, irrespective of any direct economic benefit to the pension fund
- (iii) the provision of a guarantee to a third party in relation to a liability or obligation of a related party
- (iv) the provision of services to a related party, including the provision of pension fund administration services
- (v) transactions with individuals who are related parties of an authority or a pension fund, except those applicable to other members of the community or the pension fund, such as council tax, rents and payments of benefits.

This list is not intended to be comprehensive.

The materiality of related party transactions should be judged not only in terms of their significance to the authority, but also in relation to its related party.

Remuneration

All sums paid to or receivable by an employee and sums due by way of expenses allowances (as far as those sums are chargeable to UK income tax) and the money value of any other benefits received other than in cash. Pension contributions payable by the employer are excluded.

Residual value

The net realisable value of an asset at the end of its useful life. Residual values are based on prices prevailing at the date of the acquisition (or revaluation) of the asset and do not take account of expected future price changes.

Retirement benefits

All forms of consideration given by an employer in exchange for services rendered by employees that are payable after the completion of employment. Retirement benefits do not include termination benefits payable as a result of either (i) an employer's decision to terminate an employee's employment before the normal retirement date or (ii) an employee's decision to accept voluntary redundancy in exchange for those benefits, because these are not given in exchange for services rendered by employees.

Scheme Liabilities

The liabilities of a defined benefit scheme for outgoings due after the valuation date. Scheme liabilities measured using the projected unit method reflect the benefits that the employer is committed to provide for service up to the valuation date.

Settlement (re pension matters)

An irrevocable action that relieves the employer (or the defined benefit scheme) of the primary responsibility for a pension obligation and eliminates significant risks relating to the obligation and the assets used to effect the settlement. Settlements include:

- (a) a lump-sum cash payment to scheme members in exchange for their rights to receive specified pension benefits
- (b) the purchase of an irrevocable annuity contract sufficient to cover vested benefits, and
- (c) the transfer of scheme assets and liabilities relating to a group of employees leaving the scheme

Tangible Fixed Assets

Tangible assets that yield benefits to the local authority and the services it provides for a period of more than one year.

Useful Life

The period over which the local authority will derive benefits from the use of a fixed asset.

Vested Rights

In relation to a defined benefit scheme, these are:

- (a) for active members, benefits to which they would unconditionally be entitled on leaving the scheme
- (b) for deferred pensioners, their preserved benefits
- (c) for pensioners, pensions to which they are entitled.
