

**Lancashire County Council Policies Map 2, Mineral Safeguarded Area, 2013**

Adopted Policy M2 'Safeguarded Minerals' identifies Mineral Safeguarded Areas across the County. Areas are identified around all deposits of Limestone, Sand and Gravel, Gritstone (sandstone), Shallow Coal, Brickshales and Salt. The policy notes that these have been delineated on the Policies Map as shown below.

**British Geological Survey Mapping - Mineral Resources**

The map identifies mineral resource information in support of national, regional and local planning published in 2006.

The map identifies Sand and Gravel, Sandstone, Limestone, Coal, Brick Clay and Salt.
