

**Issues & Opportunities Local Plan Consultation CLOSSES next Friday 20
September 2024**

A vision for how the Lancaster district should look in the 2040s is the subject of a new consultation and series of drop-in events

Earlier this year the council started work on a new Local Plan, which will set out opportunities for the housing, jobs and infrastructure that are needed by a growing population.

The plan will also update the policies that are used to make decisions about planning proposals. As part of the process of drafting the Local Plan, the council is now asking people for their views on a draft vision for the district.

It covers the eight themes of:

- Securing economic prosperity
- Meeting our housing needs and delivering the right type of housing
- Transport & connectivity
- Healthy lifestyles & safe communities
- Making sure infrastructure is in the right place
- Addressing the climate emergency
- Nature recovery & biodiversity
- Protecting landscapes & townscapes

The consultation period runs until Friday 20 September 2024 and an online survey has been set up to capture people's views.

Have Your Say

More information and the chance to get involved in the consultation can be

found on our Local Plan Hub on the council website at [lancaster.gov.uk/local-plan-review](https://www.lancaster.gov.uk/local-plan-review).
