LICENSING OBJECTIVES

Describe the steps you intend to take to promote the four licensing objectives:

a) General – all four licensing objectives (b,c,d,e)

List here steps you will take to promote all four licensing objectives together.

The licensee shall make an appropriate risk assessment on the need and requirement to employ door supervisors.
 When door supervisors are employed, a record will be kept (written/electronic) of: their identity, SIA licence number, times they were on duty and, details of any employer (other than the licensee or an associated group company of the licensee). Records will be kept for a period of 12 months and will be made available upon request to an authorised officer of the local authority or Police.

3. When on duty all door supervisors are to wear their SIA licence in a clearly visible position.

4. Security Officers patrol the site and the premises internally and externally

5. The licensee shall, provide and maintain efficient video recording equipment (CCTV) and recordings shall be kept for a period of 31 days.

6. The premises will operate a "Challenge 25" policy. Any person attempting to buy alcohol who appears to be under 25 will be asked for photographic ID to prove their age. The recommended forms of ID that will be accepted include passports, driving licences with a photograph, photographic military ID, proof of age cards bearing the 'PASS' mark hologram and any other form of ID whether physical or digital as prescribed by the Secretary of State.
7. No person under the age of 14 shall be permitted to remain in any bar without an adult

VENTILATION NOTE

We strongly recommend that make-up-dir is introduced directly into areas where sorract canopies are sited and, generally, this should amount to between 75 - 85% of the extract flow rate. The balances will then be drawn from surrounding areas and the bitchen will be maintained under negative pressure. Current tass Safe regulations recommends that all new kitchen installations include a safety interiodk between the extraction canopy and gas appliances. When fitted, such devices suttom sticking interior the gas supply when the canopy is witched off or is faulty. Furthermore, our engineers cannot commission any gas appliances until such a devise has been installed. Should any existing gas appliance, which does not have a fiame failure device be installed the gas supply must include a suitable gas pressure proving system, provided by others. All wiring to ventilizition system, gas interiods, gas shut off valves etc. to be carried out by the electrical contractor. separate drawing showing ventilation details will be produced on readpt of order.
