

# Eurobin specifications

Please note capacity in litres is exact. The other specifications are approximate in centimetres as all manufacturers have different dimensions:

	Capacity in litres	Height	Width	Depth	Safe lifting weight (kg)
	240	96	48	55	90
	360	101	62	85	150
	660	133	126	77	264
	770	137	126	79	305
	1100	139	137	107	440
	1280	147	138	108	440

Please note bins should not be over filled and lids must shut securely, all waste must be safely enclosed in the bin. Always ensure the bin is accessible on collection day and free from obstruction. Businesses have a legal responsibility called a 'Duty of Care' to ensure that their waste is securely stored and disposed of legally. The safest way to achieve this is by using a registered waste carrier such as Lancaster City Council.

## Trade waste and recycling sack and label information

	<p><b>Trade label</b> – attach to a standard size non-trade sack or affix to a cardboard box with flat packed cardboard inside or cardboard bundle which is securely tied. This is to be no bigger than 3ft square and no heavier than 9kg. This waste is not recycled.</p>
	<p><b>Trade sack</b> – This waste is not recycled. It is important that the sacks are always securely tied and no heavier than 9kg. Please do not place glass or sharp objects in the sack.</p>
	<p><b>Recycling label</b> – affix to a cardboard box with flat packed cardboard inside or cardboard bundle which is securely tied. This is to be no bigger than 3ft square and no heavier than 9kg.</p>
	<p><b>Recycling sack</b> – can be used for cardboard, plastic film, bags, bubble wrap, waste paper, newspaper, magazines, books with covers removed, empty tins, cans and plastic bottles. It is important that the sacks are always securely tied and no heavier than 9kg. Please note that we are unable to accept polystyrene in the recycling.</p>

Lancaster City Council is dedicated to reducing and recycling waste to help minimise your costs, make your business more sustainable and benefit the environment. We offer a comprehensive, reliable recycling and commercial waste collection service within the district. Commercial waste and recycling are subject to specific disposal requirements for which a charge applies. Trade waste collection is not included in business rates. Businesses must pay a separate charge which is dependant upon how much waste the business generates.
